Subject:-Your word necessary for starting of Agricultural College at Arabhavi. Dist:-Belgaum.

My dear sir,

I, Shivanand Swami of Arabhavi-Math Dist:-Belgaum, here-by bring to your kind notice the following few lines.

File

The Bombay Government has settled to start one Agricultural College in Karnatak. The Minister for Agriculture has already inspected three different places out of which Arabhavi is one. We prefer this place to the other two for the following reasons.

(I) The site at Arabhavi, in Gokak Taluka, Belgaum Dist. is situated in a healthy place in the Gokak Canal zone, about four miles from the Gokak town. There are fifteen villages within a radius of five miles. The Gokak Canal irrigates about eight thousand acres of land in these villages.

(2) This place is very suitable for starting Gramodyoga Centre as there are more than two lacs of Toddy Trees and "Gadali" Fibrous plants in abundance.

(3) The valleys and banks of the Gathaprabha river close by, afford arich yield of good grass with the help of which Goshalas can be maintained for Dairy and Agicultural purposes.

(4) A Sanatorium of the Karnatak Health Institute is situated just near the Hukeri Railway Station, only at a distance of two and half miles.

(5) The Gokak falls is within a radius of about two and half miles where electricity can be obtained in abundace.

(6) Desai Saheb of Sindi Kurbet owning 928 acres of irrigated lands at Arabhavi has offered to give all the land needed to the College. This site is at a place where

cultural Farm(Arbhavi Farm). The area comprises all types of soil, where all crops including Paddy, Cereals and fruit trees grow well Sericulture has been started.

(7) In the Arabhavi village thereis a small Metal Factory where Agricultural impliments are manufactured. Our Math which is close to the site has undertaken to errect one Boarding and Lodging House to accomodate Hundred students.

So I eagerly desire that your word after convincing yourself regarding the points given above, will induce the Bombay Government to start The Agricultural College at Arbhavi only.

27-9-1946.

Yours faithfully.

31st January, 1947.

To

The Registrar,
University of Bombay,
Bombay 1.

Sir,

With reference to the application for affilitation to the University of Bombay of an Agricultural College which the Government of Bombay proposes to establish at Dharwar, I am directed by Government to inform you that the above College will be established on the Government Farm, Dharwar, where temporary arrangements for conducting the College classes and practical's will be made either in the existing buildings or in the buildings to be constructed for the purpose. The arrangements for teaching of the First Year Class in Agriculture will thus be independent of the Karnatak College, Dharwar.

Your obedient servant,
sd/B.N.Uppal,
Officer on Special Duty in connection with establishment of the Agricultural College,
Dharwar,
and
College of Agriculture,
Poona.

to agree to the Agricultural College, Dharwar, being housed in the buildings of the Karnatak College, Dharwar, and accordingly it is suggested that the Educational Department may be requested not to proceed with alternations, etc. in the laboratories, etc. of the Karnatak College to make them suitable for the Aggl. College, Dharwar.

Sd/- B.N.Uppal.

.....

Reconstruction Deptt.

Pending construction of the buildings required for the Agril. College at Dharwar it was proposed to house the first year science class at the Karnatak College, Dharwar. It will however, be seen from the foregoing note handed over by Dr. Uppal to the S.A.S., in the absence of the Addl. Secy., that the University is not likely to agree to such an arrangement. Since the E.D. has already been requested to make the necessary arrangements in this connection this may be referred u.o. to that Deptt. in continuation with a request not to proceed with the work of alterations, etc., in the laboratories etc., of the Karnatak College. That Deptt. may be requested to treat this as immediate.

No.D.D.-1.

Office of the Executive Engineer, D.Dn.
Dharwar, 13th October 1946.

Subject:- Opening of an Agricultural College at Dharwar

The Honourable Minister for Agriculture and Forests came here with the Joint Secretary for Reconstruction Department and the Principal of Agricultural College, Poona, on the 11th October 1946 for the selection of a site for Agricultural College proposed to be opened at Dharwar with effect from June 1947. The sites at Dharwar Farm and at Narendra (on the Poona Bangalore Road Mile 258) were inspected and the final selection will be communicated by the Agricultural Department in due course.

2. I informed the Honourable Minister and the Joint Secretary, Reconstruction Department that with the conditions now obtaining, it would be extremely difficult to complete even one Laboratory Building with any architectural features by June 1947 and suggested that some temporary arrangements may be made for the present. I also mentioned that a new building Sub-Division may be opened at once at Dharwar as a lot of spade work such as contouring of the site, surveying the proposed canal from the Kelgeri tank etc., will have to be started very early. The Honourable Minister and the Joint Secretary agreed that special measures were necessary to expedite the work. The work is likely to cost about Rs.15 to 20 lakhs and as it will have to be completed within about 2 years, a special Sub-Division will be necessary.

3. I have therefore to request you to move Government to sanction the opening of a Building Sub-Division for the Agricultural College. Efficient and experienced staff will be needed

for

for the Sub-Division.

4. It is likely that the Agricultural College will be started at the Karnataka College as a temporary measure with effect from June 1947.

BOMBAY.

No.D.D.1.

Public Works Department,
Belgaum, 2nd November 1946

Subject:-Special Building Construction Sub-Division at Dharwar: Opening of a - Sanction to the -.

In furtherance of the Government decision to open an Agriculture College at Dharwar, with effect from 1st June 1947, a heavy programme of construction of a large number of buildings both residential and non-residential involving an expenditure of some 15 to 20 lacs will have to be carried out with the greatest possible expedition. The Executive Engineer, Dharwar Division, has, in consultation with the Joint Secretar to Government, Reconstruction Department, and the Principal of the Agriculture College, Poona, proposed that a new Sub-Division called 'Special Building Construction Sub-Division, Dharwar', may be opened as early as possible as a lot of spade work has to be done. For obvious reasons it is impossible for the normal Sub-Division at Dharwar to complete such a heavy programme within a record time of about 2 years.

2. For the efficient working of the Sub-Division, the following temporary staff is considered necessary by the Executive Engineer:-

Item	Scale of pay
1 Deputy Engineer (S.D.O.)	B.S.E.Class (II)
4 Overseers	Rs. 70-5-110-10-180-10-250 (To be appointed as required)
1 Assistant Draftsman for preparation of working drawings etc.	Rs. 70-5-110
3 Clerks ...	" 25-5/2-65
1 Typist ...	" 70-5-95
1 Tracer ...	" 25-2-55-3-70
4 Khalasis (for Overseers)	" At the sanctioned rates.
8 Inferior servants ...	-Do- -do-
5 Maistries ...	Rs. 30-2-50-5/2-70
10 Karkuns ...	" 20-2/2-40.

Department endorsement No.1014/29240.A, dated the

For Divisional office, Dharwar.

1	Auditor (for auditing the Sub-Divisional accounts)	Rs. 70-5-95
1	Typist	70-5-95

3. The proposals of the Executive Engineer detailed above are reasonable and may be sanctioned with immediate effect.

4. The Executive Engineer proposes to accommodate the new Sub-Division in the Savanur Nawab's Bungalow and Durbar Hall at Dharwar at present used as a Grain Godowns for which the Collector, Dharwar, has been referred to. In the event of these buildings not being available proposals for the construction of a new building will be submitted to Government.

5. A Sub-Divisional Officer can be found in this Circle, immediately on receipt of orders from Government In the meantime, the Executive Engineer will keep proposals for other personnel ready.

Sd. N. B. Gadre.

Joint Secretary to the Government of Bombay, Reconstruction Department.

IMMEDIATE

No. 7[illegible] of 1946
College of Agriculture
Poona, 16 December 1946

To

The Director of Agriculture,
Bombay Province,
Poona.

The question of construction of buildings in connexion with the establishment of the Agricultural College at Narindra, near Dharwar, should receive very urgent attention, as it is essential that most of the laboratory and farm buildings, a hostel building for the students, and some residential quarters for the staff of the College should be constructed by April 1948 at the latest. It would also be necessary to consider whether these constructions should be built departmentally, or whether the P.W. Department should be requested to create a special sub-division for the purpose. I would request you to be so good as to move Government in this matter at the earliest date.

war, the arrangements for teaching the F.Sc.(Agri.) class at that institution.

I met the Principal, Karnatak College, Dharwar, and his staff on 28th October and discussed with them the arrangements to be made for teaching of the subjects at the F.Sc.(Agri.) Examination. On the following day, I went round some of the buildings near the Karnatak College for the purpose of finding suitable hostel and office accommodation for the students and the staff of the proposed Agricultural College, Dharwar, and was accompanied by the Executive Engineer, Dharwar, Rao Bahadur Patil and the Deputy Director of Agriculture, S.D., Dharwar. A brief report is given below:-

1-a. Except for the undernoted minor additions to the existing buildings, the facilities in respect of laboratories and class rooms at the Karnatak College will be adequate for teaching of the subjects at the F.Sc. (Agri.) Examination:-

(i) Extension to the Taxidermy building in the Biology block for providing accommodation for the teaching staff of the Agricultural College, Dharwar, during the College hours, at a cost of approximately Rs.4,000.

(ii) Addition of a small room to the old Chemistry Laboratory at a cost of approximately Rs. 4,000.

(iii) Provision of electric lights in the Gallery Hall to be used as a Lecture Room.

1-2. Except in certain subjects like soil physics, agriculture, etc., for which provision will be made, there are ample library facilities in general sciences at the Karnatak College, and these will be available to the students of the Agricultural College.

1-3. Membership of the Karnatak College Gymkhana will be open to the students of the Agricultural College Dharwar.

1-4. A tentative time-table for the F.Sc.(Agri.) class has been prepared in consultation with the Principal, Karnatak College, Dharwar, and teaching according to this time-table can be carried out without interfering with the normal work of the Karnatak College Dharwar.

1-5. The question of providing additional equipment for the science laboratories at the Karnatak Colleg Dharwar, was discussed with the Principal of that institution and his staff, and it was considered that this matter required detailed examination on the part of the teaching staff of both the institutions and should be gone into at a later date. I propose to have this matter examined shortly, but it may be noted that the authorities of the Karnatak College will have no objection to the use by the students of the Agricultural College of such equipment as is now available at the former institution, viz. microscopes, charts, physical apparatus, etc.

2-1. As regards field practicals in Agriculture,

the existing facilities on the Dharwar Farm are quite ample except to the extent indicated below:-

(i) The existing cattle shed on the Farm will require to be extended.

(ii) A simple shed for conducting practicals during the rainy season will have to be constructed.

(iii) An additional area of 40 acres of land near the Dharwar Farm will require to be taken on lease for one year for the purpose of giving field practice to the students in the use of agricultural implements, etc.

2-2. Immediate arrangements are necessary for purchase of different types of implements and live-stock of selected breeds, for teaching work.

3-1. Hostel accommodation for the Agricultural College students can be provided in one of the old blocks for residence of students at the Training College, Dharwar, if the Director of Public Instruction, Bombay Province, agrees to three students being accommodated in each room of the new blocks constructed the College. The Educational Inspector, Dharwar, and the Principal, Training College, Dharwar, were agreeable to the proposal. Alternatively, rented accommodation will be required for hostel purposes. One of the railway bungalows near the Karnatak College and Mr. Keshavdas's bungalow opposite the Police Lines may be requisitioned for the purpose. In my opinion, the best arrangement will be to accommodate the students of the Agricultural College at the Training College, Dharwar, as this institution is very near the Karnatak College.

4-1. A suitable building near the Karnatak College will have to be rented for the office accommodation of the Principal, College of Agriculture, Dharwar, and his staff. Nawab of Savanur's bungalow, which is very close to the Karnatak College, would perhaps prove most suitable for the purpose if arrangements could be made to find a Government bungalow for Professor Gideon who is now occupying the Nawab's bungalow but is anxious to vacate it. Similarly, a bungalow for the residence of the Principal, College of Agriculture, Dharwar, will have to be rented close to the Karnatak College, Dharwar.

5-1. It is most urgent that the appointment of the Principal, College of Agriculture, Dharwar, should be made without further delay so as to enable him to complete arrangements for purchase of equipment for laboratory and field work before the commencement of 1947-48 session in May 1947.

6-1. The University authorities should be informed at once that, pending the appointment of the staff of the Agricultural College, Dharwar, the Local Enquiry Committee appointed by the University of Bombay should deal with Dr. B.N.Uppal, Principal, College of Agriculture, Poona, in all matters regarding the affiliation of the proposed Agricultural College, Dharwar.

R.C.D.

Submitted for orders on the points raised by Dr. Uppal.

R.N.J.
1/11/46

I have already written to the University in terms of para 6-1 of Dr. Uppal's note in anticipation of H.M's approval.

1/11

Jt. Secy.

H.M., Agre.

Govt. has already decided to establish an Agrl. College in the Karnatak at Dharwar. The site at Narendra on the Poona-Bangalore Road has been selected for the proposed college. The S.E.,S.C., has been asked to submit proposals for a separate sub-division for the college. The main file No.1014 was submitted to Secy., F.D., H.M., Agri. and H.M.,F.D. and R.P.M. for orders on 4th Novr. 1946.

2. The following remarks are offered on the present report of Dr. Uppal.

Para. 1 (a) .- The E.D. may be requested to arrange for the extensions required for the F.Y. Sc.(Agri). Class at the Karnatak College Dharwar, pending the construction of the bldgs. of the Agrl. College, Dharwar. It is believed that the extensions will be of use to the Karnatak College, Dharwar.

Paras. 1-2, 1-3 and 1-4 of Dr. Uppal's report.- No action is called for on these paras. for the present.

Paras. 1-5, 2-1,2-2,3-1 and 4-1 of the report. - The Prin-. Agrl. College, Poona, may be asked to submit specific proposals to Govt. on these paras. giving details of the cost involved. He may be asked to submit his proposals through the Dir. of Agre. and the Agre. Commr.. The accompanying endt. may issue.

Para. 5-1.- The question of apptt. of R.S. H.M. Desai to the post of Principal, College of Agre., Dharwar, is under separate consideration. The main pps (l.p. 1014) were submitted to Jt.Secy.Addl.Secy.,

H.M., Agri. for orders on 2nd Novr. 1946. No further action is necy. on this para.

Para. 6-1. The Regr., Bombay University has already been addressed in the matter (vide Jt. Secy's letter dated 2nd. Novr. 1946 to the Regr. Bombay University). No further action is called for.

7/11/46

Jt. Secy.

Secy, E.D.

H.M. (Agr.)

The main should also be shown to Ed to enable it to take necessary action. I presume F.D concurrence has been obtained by Reg. w.r.t. A on p. 15

8/11.

9/11

Immediate.

on the visit to Dharwar of Dr.B.N.Uppal, Principal. Agrl. College, Poona, to discuss with the Principal of the Karnatak College, Dharwar, the arrangements for teaching the F.Y.Sc. (Agri.) class at that institution.)

No. 1014-A.
R.C.Deptt.
B.C., 11/3 Novr. 1946.

Forwarded to the Educational Deptt.

2. Govt. has decided to establish an Agrl. College at Dharwar with effect from the next year. The site at Narendra on the Poona-Bangalore Road has been selected for the proposed college. Pending the construction of the bldgs. of the Agrl. college, Dharwar, it is proposed to start the F.Y.(Agri.) class at the Karnatak College, Dharwar. The E.D. is requested to arrange for the extensions reqd. for the F.Y.Sc.(Agri). class at the Karnatak College, Dharwar. It is believed that the extensions will be of use to the Karnatak College.

A

By order of the Govr.of Bombay,

the Agrl. Commr.)
the Dir. of Agre.) with copies of Dr. Uppal's report on his visit to Dharwar,

the Prin., Agrl. College, Poona.

2. The Principal, is requested to submit specific proposals on paras. 1-5. 2-1, 2-2 3-1 and 4-1 of his report, ~~giving~~ furnishing details of the

cost involved. The Prin's proposals should be submitted to Govt. through the Dir. of Agre. and the Agrl. Commr.

By order of the Govr. of Bombay,

ISSUED
Aug. 13/11

Jt. Secy. to Govt., R.C.D.

7/11/46.

With regard to the establishment of the proposed Agril. College at Dharwar action is necessary as under and orders will have to be issued as soon as the scheme of the College is formally approved:-

(1) E.D. will have to be requested to agree to accommodate the First Year Class of the proposed Agril. College in the Karnatak College at Dharwar;

(2) The P.W.D. will have to be instructed to complete immediately the additional chemical laboratory accommodation that is being provided at the Karnatak College. Unless this additional accommodation is ready by June next it will not be possible for the Karnatak College to provide for the students of the proposed Agril. College as far as chemical laboratory work is concerned;

3) A Special P.W.D. Sub-Division in charge of an experienced Dy. Engineer assisted by two overseers at least in the first instance should be created to survey the site and prepare detailed plans and estimates and undertake the work so as to enable the Agril. College to work in its own buildings with effect from May 1948.

H.M.(Agre) Orders may be passed as suggested by the Secy. R.C.D.

H.M.,R.C.D.

27/10/46

Action is being taken on another P.F.

Paras (1) and (2) of Jt Secy's note. — The E.D. has already been requested to arrange for the additions reqd. for the I.Y (Sc) Agr. Class at the Karnatak College, Dharwar. That Deptt. will take the necy. action in consultation with the P.W.D. (vide G.E. No. 1014-A, dated 11/11/46). No further action is called for on these paras.

Para 3 of Jt Secy's note — The S.E. S.C's proposals for the establishment of a Bldg Sub-Divn. for the Agrl. College at Dharwar have since been received and they have been forwarded to the P.W.D. for sanction. No further action is called for.

2. The main file (No. 1014) regarding the establishment of the Agrl. College at Dharwar was referred u.o. to the P.W.D. & I.D. on 11/11/46. I.D. may now see these papers u.o. with reference to A on p. 15. P.W.D. may also see these papers. The main file No. 1014 will be shown u.o. to the E.D. as soon as it is recd. back from the P.W.D. & I.D.

To

The Director of Public Instruction, B.P., Poona.

No.S-50-2/1464 of 1947. Poona, 27 January, 1947.

Subject:- Establishment of Agricultural College at Dharwar. Hostel accommodation for the students.

Reference Government endorsement No.1014-A, dated 11th November 1946, addressed to the Educational Department, and Government Resolution, Reconstruction Department, No.1014, dated 26th November, 1946.

As per copy of the report of Dr.Uppal, Principal, Agricultural College, Poona, attached to the above reference, I have to request you to please allow us to use the old blocks at the Training College for Men, Dharwar, as hostels for the students of the Agricultural College, Dharwar, temporarily till the buildings of the Agricultural College, Dharwar, will be completed. When these blocks are made available, we will have to make temporary arrangements for kitchen and dining rooms as no such facilities are available along with these blocks. It is also requested to allow us to make such arrangements.

An early reply in the matter is requested.

M/23-1

Subject:- Establishment of Agricultural College, Dharwar.

.S-50-Z of 1947. Poona, 27 January 1947.

Reference Government Reconstruction Department endorsement No.1014-A dated 11th November 1946 and Government Reconstruction Department No.1014 dated 26th November 1946.

2. I have to enclose herewith a copy of letter No.73/322 dated 19th January 1947 from the Principal, Agricultural College, Poona, and to state that it was proposed to start the first year (Agriculture) Class at the Karnatak College, Dharwar, and to make necessary additions and alterations to the laboratories and some of the buildings of the Karnatak College, Dharwar. But in view of the letter from the Principal, Agricultural College, Poona, the academic Council of the University of Bombay has not approved the proposal that the Agricultural College, Dharwar should be housed in the same buildings as the Karnatak College, Dharwar, and unless the Government of Bombay is prepared to make independent arrangements for laboratories, lecture rooms etc. it is extremely doubtful whether the Council will recommend the affiliation of the proposed Agricultural College, Dharwar from May 1947. At the request of the Principal, Agricultural College, Poona, the Academic Council has appointed a committee to examine the question of the affiliation of the proposed Agricultural College and to prescribe the conditions that must be fulfilled before such affiliation can be recommended by the Academic Council. The Committee, of which Dr. Uppal, Principal, Agricultural College, Poona, is a member, is to meet at Bombay on 23rd January 1947. In view of the above, I request that Government may be moved to inform the Educational Department not to proceed with the work of Additions and Alterations to the laboratories and buildings of the Karnatak College, as it is now necessary to make some independent arrangements for laboratories, lecture rooms etc. on the Dharwar Farm till the buildings for the College are built.

A

3. I am writing to the Principal, Agricultural College, Poona, to submit proposals and estimates for the additions and alterations that are necessary for the laboratories and lecture rooms etc. on the Dharwar Farm for the present, in consultation with the Principal, Dharwar Agricultural College.

K:23

Director of Agriculture.

R. C.

With ref. to "A" after Dr. agree foregoing letter. It may be stated that the E.D. has already been requested not to make any alterations or additions to the laboratories and buildings at the Karnatak College, Dharwar. No further action is necessary in this connection.

2. Receipt of plans & estimates promised after Dr. in para. 3 of letter may be awaited.

27-1-47

A.S.

22/2

The Chief Engineer, P.W.D., Principal Rao Saheb Desai, the Executive Engineer, Dharwar Division and the Executive Engineer, Building Projects Division No.1, went over the site proposed for the new Agricultural College at Dharwar, the existing farm buildings at Dharwar and the various buildings proposed for temporary accommodation of the College for the First Year's Course only.

2. It seems to have been decided to acquire about 400 acres of land in the village limits of Narendra and Yettingud and the question of location of (i) the main College building with its Laboratories and other structures; (ii) the College Hostel; (iii) Staff Quarters and (iv) Servants' Quarters is to be decided. In addition to these there will be independent groups of farm buildings for Dairy Farm and Horticulture distributed over the farm estate.

3. The area in Survey Nos.94, 3, 4 & 5 is fit for the construction of buildings owing to the murumi soil available and the gentle slope existing. For the College Hostel Survey Nos.74,75 & 76 appear to be suitable. For the Staff Quarters Survey Nos.86,87 & 88 and for the Servants' Quarters Survey Nos.1 & 2 appear to be suitable. The main approach road from the Belgaum-Dharwar Road will have to be laid out. The general requirements of individual rooms required for the working of the College have been decided upon by Dr.Uppal and after they are scrutinized they should be submitted to Government for final approval. In regard to the main College buildings it will be a question of policy of Government whether the main College building should be of the style already

adopted ..

indicated that the construction should be of a cheaper and more economical kind.

4. The question to be decided immediately is of water supply for the residents of the College and irrigation. It is considered that one or two large wells on the right bank of the nala flowing through the proposed College estate will give the requisite supplies of water and as an immediate measure, the Agricultural Engineer to Govt. should sink small bores, in order to see the depth at which water is met and the likely final depth of the well. The Agricultural Engineer may consult the Water-Finding Expert, if necessary, but he should give immediately his decision on the location of the two wells, so that the P.W.D. can start the construction of the wells by the end of February the latest. In the absence of the water-supply even the construction of the College buildings will be an extremely difficult affair. There is a large existing well on the left bank of the nala on which there is no irrigation at present. Attempts should be made to lease out this well for two years with a view to utilize that water for construction of the College buildings. This move should be made through the Collector of Dharwar by the Executive Engineer, Dharwar Division.

5. It is understood that the University of Bombay is not likely to allow the commencement of the College Courses in the existing buildings of the Karnatak College at Dharwar and as such we have got to hunt out for private or Government existing buildings for opening the College in the month of May 1947. The points involved in this are:-

(i) Location of Class Rooms and Laboratories.
(ii) Location of the residence of the Principal and College office building

irrigated land.

(i) Location of Class Rooms and Laboratories. Principal Desai considers that the Class Rooms and the Laboratories can be temporarily accommodated, either in the existing office and laboratory of the Cotton Breeder, with some temporary additions for Class Rooms and the office of the Cotton Breeder. Additions for Live Stock and Agricultural practice will also have to be made here. The chief difficulty on this site is going to be water-supply for the Laboratories and the College as a whole, and it is suggested that the Agricultural Engineer should immediately sink a 6" bore hole which will be useful even for the practice of Agriculture over one acre for the first year. The proposals in this connection should please be made out by the Principal in consultation with the Executive Engineer, Dharwar Division, so as to know the capital cost involved.

(ii) Location of the residence of the Principal and College Office Buildings. Perhaps the Palace of the Nawab of Savanur will be made available for this purpose and negotiations are in progress. If they are successful, the location and the accommodation appear to be suitable though some additions and alterations will be required for adapting it for the office accommodation.

(iii) Hostel, Reading Room and Library for the students. It is understood that the Principal of the Primary Teachers' Training College for Men, will be prepared to hand over one block of the residency (28 rooms) for the Hostel of the Agricultural College. We shall have to provide kitchens and dining halls. In this compound there is a main central hall which is at present used as a Grain Godown but as the new M.B. shed is nearly complete,

house the Reading Room and Library for the students. There is one Darbar Hall which is at present used for storing grain. It is suggested that this hall be vacated and made available to the Agricultural College for use either as Class Rooms or Laboratories. A large temporary structure can be constructed in the compound of this Darbar Hall to accommodate two Class Rooms. The Chief Engineer considers that the Darbar Hall together with ~~the~~ one new M.S. shed (105'x36') can easily accommodate the Class Rooms and the Laboratories. There is a suggestion to get on temporary lease of two years the Railway Bungalow which is now under occupation by an A.T.S. This bungalow can conveniently accommodate the College staff which is going to find it extremely difficult to get accommodation in the town immediately, or for some other College activity but it is certain that the acquisition of this structure will help towards the opening of the College on the proposed date.

(iv) <u>The practice of Agriculture on one acre of irrigated land.</u> The suggestion at present is that a 6" tube well on the existing farm will solve the question. An alternative which readily suggests itself is that of for using the Municipal and Government wells near Madihal Warehouse. This year the Kelgeri Tank being full, there is not expected to be any demand for water from these wells for the town water-supply and the Chief Engineer is given to understand that the Municipality had made an offer of their well for purposes of Agricultural practice for the new College of Agriculture. All that would be required is either to lease out a few acres of land round about these wells or to install pumps and to convey the water to the Agricultural Farm area, so that the Agricultural practice can be made possible. The

Agricultural ..

requested to work out the cost of installing pumping machinery, the pipe line and the 6" tube well, so as to get orders of Government immediately.

6. General. It is considered that the best arrangement for initiating the College at the proposed time will be to construct temporary Class rooms, laboratories, office and such other buildings in the Agricultural Farm compound in preference to making use of any of the old structures in Dharwar itself for the purpose. Towards the completion of these structures in good time, we shall require asbestos cement sheets or C.G.I. sheets in large numbers immediately. The walls, as far as the Chief Engineer can see, will have to be in stone and mud with cement or lime pointing, the flooring being in Yergunteela stone laid in mud with cement pointing. The Principal will arrange immediately to secure G.I. piping for the working of the laboratory. As regards the furniture the College authorities will make a list immediately and place orders either at Hubli or at Belgaum failing similar supplies from Dharwar. It is stressed that unless orders regarding the construction of these temporary structures are received by the Executive Engineer, Dharwar Division in the 1st week of February and permission is given to negotiate rates with large contractors having trucks and other construction help available, there will be no possibility of the P.W.D. making the structures available for the opening of the College. On getting the general permission the Executive Engineer, in consultation with the Principal, will commence the construction in anticipation of sanction to the plans and estimates.

--AGRICULTURAL COLLEGE DHARWAR--

Referring to R.C.D.Resolution No.1014 dated the 26th November 1946 I find in paragraph 4 thereof that the Superintending Engineer, Southern Circle, has been requested to prepare the necessary plans and estimates. I also find that copy of the Resolution has not been endorsed either to me or to the Executive Engineer, Buildings Projects Division No.1.

2. It, therefore, appears that the Chief Engineer, Public Works Department, and the Executive Engineer, Buildings Projects Division, will have nothing to do with the Agricultural College buildings at Dharwar and that the work that is being done by the latter officer, in consultation with Dr.Uppal, should be discontinued immediately. Alternative orders, if any, if paragraph 4 of the G.R. has been drafted through misunderstanding, may please issue telegraphically and confirmed by letter thereafter.

Subject :- Plans and estimate for the proposed Agriculture College at Dharwar.

I have to invite reference to letter No. G-53/46-W, dated the 6th January 1946 from the Chief Engineer, P.W.D. Poona, addressed to the Additional Secretary to the Government of Bombay, Reconstruction Department, Bombay, copy sent to you and to state that on the assumption that the orders contained in paragraph 4 G.R.(Reconstruction Department) No.1014 dated the 26th November 1946 were correct, I had taken action for transferring suitable hands from my staff and quick opening of a Sub-Division. I have also issued instructions to the Executive Engineer Dharwar Division to take the preparation of detailed plans and estimates of the Agriculture College buildings at Dharwar from the 10th January 1947 after taking all available help from the Executive Engineer, Building Projects Division (1), Poona.

It is very fortunate, however, that the specially trained staff of the Project Organisation will now be available as per Chief Engineer, P.W.D's letter; and Executive Engineer, Dharwar, will accordingly await the lay-out and detailed plans and estimates from them.

No.653/46-W.

Office of the Chief Engineer,
Public Works Department,
Poona No.1,
Dated the 24th February 1947.

AGRICULTURAL COLLEGE AT DHARWAR :
INSTRUCTIONS AND ORDERS OF HONOURABLE MINISTER AGRICULTURE IN REGARD TO BUILDINGS FOR THE --

In accordance with the provisions for buildings sanctioned by Government in Resolution Reconstruction Department No.1014 dated the 26th November 1946, the Principal, Agricultural College, Poona and the Executive Engineer, Building Projects Division (No.1), had prepared three alternative proposals for the main Administrative Block and two Laboratories and had proposed sites for the location of the various units of the buildings, viz., the Administrative Block, two Laboratories, Hostel and the Residential Quarters for the staff. The Honourable Minister, Agriculture, after going through the alternative proposals and inspection of the proposed College site on the 23rd February 1947, issued the following orders :-

(i) Alternative No.3 (a blue print of which is submitted herewith to Honourable Minister, Agriculture), which allows for an Administrative Block of ground floor and two upper floors and two Laboratory Blocks having ground and one upper floor each, should be adopted for the final plans and estimates. The Assembly Hall should be on the ground floor (dimensions 40' x 60'), and the Library should be on the first floor above the former. A large library is very essential. The heights of these rooms should be adopted so as to suit the proposed 40' width.

(ii) A Hostel for 150 students should be constructed. Each room should allow for three students and should have a floor area of not less than 250 sft. The plan prepared for a similar Hostel for Primary Teachers Training College containing the above provision and a Common Room, Visitors' Room and an Isolation Room (a blue print of which is submitted to Honourable Minister, Agriculture, herewith), is to be adopted.

(iii)The Laboratories and the Hostel should not involve any expenditure on Architectural frills.

(iv) The location of the Administrative Block, which should have an economical architectural frontage, should be in Survey No.95 at a high level but avoiding the old borrow pits and soft soil. Its location in Survey Nos.86 and 87 is not approved as they are rather low and will not give a prominent height and elevation to the Main Building.

(v) The Public Works Department should, without fail, get ready by the 15th April 1948 the following minimum accommodation :-

(1) Two Laboratory Blocks.
(2) One Hostel for 150 students.
(3) Bungalow for the Principal.
(4) Bungalow for the Superintendent of the Hostel.
(5) Requisite quarters for servants.

The .....

The Administrative Block being two stories high, will naturally take longer time for completion though its construction also should be taken in hand, as soon as possible.

(vi) The design for the Principal and Superintendent, Hostel's residences should be as has been generally approved for Class I and Class II officers, respectively (vide the printed booklet of Type Designs for Buildings prepared by the Project Organization). The other structures should be as shown in this printed booklet, the accommodation for the servants being three rooms as proposed in those plans.

(vii) The buildings for Class II and III officers should be in twos with only the ground floor. As sufficient area is available, there appears to be no need of having these blocks with an upper story.

(viii) The College and its colony should have water-borne carriage system, the effluent being utilized for purposes of farming. The main approach road from the Belgaum-Dharwar road should come straight to the centre of the Administrative Block. Sufficient width for this road, as also the avenue of trees along it, should be allowed.

(ix) The Forest Department should be asked to supply good teak wood at market rates, which should be entered in the Contract Documents. The requirements of galvanized iron piping should be made out and a special letter for this, as also for the steel required for reinforcement, should be addressed to the proper officer with the Government of India and Honourable Minister would try his best to get these, as soon as possible.

The Executive Engineer, Building Projects Division (No.1), Poona. He should prepare the estimates for the two Laboratory Blocks, Hostel and the Principal's and Superintendent's bungalows immediately, with a view to enable the Executive Engineer, Dharwar Division, to invite tenders for the construction of these.

2.. The line plan of the Administrative Block should be supplied to the Consulting Architect to Government (Junior) for giving plans complete for preparation of estimate thereafter.

The Consulting Architect to Government (Junior), Bombay.

2. It will expedite matters if the Consulting Architect obtains orders of Honourable Minister, Agriculture by personal approach, so as to expedite the whole work. The exact location of the Administrative Block and the Laboratories will be decided as soon as spot levels and trial pits are taken. His suggestion to have the Administrative Block to the east of but not on Survey Nos.86 and 87 is approved but the highest ground possible will be selected. It may be necessary to have the Assembly Hall and the Library in two floors as against the three in the main building. It is open to him to adopt a height which will suit the width of 40' and provide steps from the main building on to the Library on the first floor.

3. It is to be noted that the plinth will be in stone masonry third sort and the superstructure in brick, the side and rear being cement pointed or plastered, as may be economically possible. The architecture should not cost much but he is free to adopt lines for the elevation as would convey an imposing appearance. The use of dressed stones is to be avoided, as far as possible.

The Principal, Agricultural College, Poona.

2. The other points decided upon in the Honourable Minister's inspection are to be dealt with by him, viz., the leasing of railway bungalow, using bulldozer for levelling the land, acquisition of an acreage larger than 400 for the Agricultural College premises, the location of wells for irrigation and water-supply on the site of the College, fixation of a temporary hostel for the students and so on. The Honourable Minister has accepted the plan to make additions to the Inspection Bungalow and to have a Guest Room at the Agricultural Farm, Dharwar. The Executive Engineer, Dharwar Division, has this work on hand and he will proceed with them expeditiously.

The Superintending Engineer, Southern Circle.

The Executive Engineer, Dharwar Division.

- INVITING TENDERS FOR THE BUILDINGS OF AGRICULTURAL COLLEGE, DHARWAR -

In continuation of my letter No.653/46-W dated the 14th instant addressed to you, on the subject of Administrative Approval to the buildings involved in the first stage of the Agricultural College at Dharwar, I am to request that permission of Government to invite public tenders for (1) Agronomy & Chemistry Block; (2) Biology Block; (3) Hostel for 150 students; (4) Kitchen and Dining Hall; (5) Principal's Bungalow; (6) Hostel Superintendent's Bungalow and (7) Five Blocks for servants each accommodating six servants, may please be obtained and communicated immediately to enable putting the buildings in hand, in anticipation of sanction to the detailed plans and estimates. The plinth areas have all been approved by your Department, vide Government letter R.C.D. No.1014/5299 A dated the 6th March 1947. I am not sure if this R.C.D. letter is a permission to invite tenders, in anticipation of technical sanction and hence I am approaching Government.

Chief Engineer,
Public Works Department.

Copy forwarded to :-

The Chief Engineer & Secretary to Government, Public Works Department, Bombay, with a compilation of the plans which have been sent to the Reconstruction Department for purposes of Administrative Approval. Detailed estimates for the purpose of invitation of tenders, will be ready in a day or two and the tenders will be invited by the Executive Engineer, Dharwar Division, who will be in charge of the construction.

The Superintending Engineer, Southern Circle.

The Executive Engineer, Dharwar Division.

Copy submitted to :-

The Honourable Minister for Health and Public Works.
The Honourable Minister for Forest and Agriculture.

The Chief Engineer is proposing to fix the sites for all the above buildings personally on the 17th instant, prior to the invitation of tenders.

Reconstruction Dept.

Govt. has already authorised the Chief Engr; P.W.D; Poona, to take up the works and complete them immediately. No further orders authorising the ch. Engr. to invite tenders appear to be necy. As however the point is not free from doubt, the permission asked for may be granted. The letter and endts. overleaf may be sent after m.o.v. to the P.W.D. which may be requested to treat this case as immediate.

P.T.O

R. & D.

The University of Bombay has laid down certain conditions which should be fulfilled before the College at Dharwar is affiliated and starts functioning. Necessary additions and alterations at the Dharwar Jail are required to be carried out immediately. Normally P.W.D. will have to ask the Utilisation Conservator to release the quantity of timber indicated by the Ex. Engr., Dharwar Dn. These proposals, therefore, be referred u.o. to the P.W.D. with a request to issue immediate instructions to the Utilisation Cnr. of Forests to release the timber required.

21.2.47 The Chief Conservator of Forests should be requested to arrange for the supply of the timber at the earliest possible date. The R.D. may see u.o. before issue of orders.

Below letter No.33/7227 dated 1/3-3-47 from the Chief Conservator of Forests,B.P.to the Utilization Conservator of Forests,B.P.

No.11/4998 of 1946-47.
Poona: Dated: 6th March 1947.

Returned with compliments.

We could have handled this much more expeditiously had the demand come direct to us through the Executive Engineer Dharwar's immediate superior.

As regards the demand itself,it so far consists only of a request for a general directive from Government to release timber. We can already do this in cases of authentic Government requirements and can ourselves ask for Government orders when in doubt.

2. I note that the only partial specification given is for teak wood exceptional width and the 24" planks are likely to require the very best logs we can find,i.e. logs of certainly not less than 7' girth at the thin end. I doubt if such high grade teak should be given for such a purpose.

3. I suggest that the case now be transferred to this office so that can ask the Conservator of Forests,S.C. to get into touch with the Executive Engineer,Dharwar to find out exactly what he wants and to make suc suggestions as appear suitable about using timber of less width,the substitution of other hardwoods where possible and whether he can undertake to supply sawn sizes.

4. If I may be permitted to take action at once to clear the points mentioned above. I may please be supplied with copies of the Executive Engineer's No. G 76 of 8- 2-47 and of the Principal and Officer on Special Duty's No.73(D)851 of 17-2-47 for forwarding to the Conservator of Forests,S.C.

1. There are two workshops that are at present in operation in the Agricultural Department. One of these is attached to the Poona Agricultural College Farm where the College students are given practical training in carpentry and smithy practice. In addition to the above, the carpenters and blacksmiths carry out all the repair jobs to the farm implements and machines and some times they manufacture some of the wooden implements and tools. They do not carry out the job of the building construction work at present and have no experience in that line of work. Their number and grades are as under.

Sr. No.	Name of the Post.	Number	Grade.
1.	Carpenter	One	30-5/2-60
2.	Blacksmith	Two	60-3-90

2. The second workshop is attached to the Agricultural Engineer's Section in Poona. There is one blacksmith and one carpenter in the workshop staff. They usually carry out the repair jobs to the departmental machinery and sometimes help in the alterations in the design of the indigenous implements. They have no experience of carrying out the constructional works in carpentery and smithy. Their number and grades are as under :-

Sr. No.	Name of the Post.	Number	Grade.
1.	Blacksmith	One	60-3-90
2.	Carpenter	One	Paid from Contingency.

3. In addition to the above two workshops, proposals have been sent to Government for setting up five Divisional Workshops for the manufacture of and repairs to the Agricultural machines and implements. These are to be located, one in each of the Districts of Kaira, Surat, Nasik, Ahmednagar and Belgaum. In each of the above Workshop the following staff is provided :-

Sr. No.	Name of the Post	Number	Grade
1.	Workshop Superintendent.	One	B.A.S. Class II
2.	Foreman	One	130-10-250
3.	Teacher Foreman	One	130-10-250
4.	Store Keeper.	One	90-4-130
5.	Turner	One	90-4-130
6.	Assistant Turner	One	15-5/2-60-4-100

7. Fitters

Sr. No.	Name of the Post	Number	Grade
7.	Fitters	Two	100-4-120-5-150
8.	Junior Fitters	Two	25-5/2-60-4-100
9.	Carpenter	One	45-5/2-60-4-80
10.	Blacksmith	One	60-4-100
11.	Welder	One	90-4-100
12.	Moulder	One	60-4-100
13.	Engine Driver	One	35-5/2-75
14.	Mates for the above posts.	Five	30-5/2-50

4. It is not known as to what is the present position of the above proposals. The total estimated cost of each workshop is Rs. 1,25,000/-. (Capital and recurring expenditure for one year).

(Sd) P.J.Patel
Agricultural Engineer to Govt.,
B.P., Poona.

D.O. No.II/5292 of 47.

Office of the Agriculture Engineer
to Government, B.P.,
Poona 5, 20th March 1947.

sjt.20;3.

Dear Mr.Kale,

As per our personal talk I am sending herewith a short note on the present position of operating workshops in the Agricultural Department. The details of the workshops for which proposals have been sent have also been given. I hope, this would meet with your needs.

With regards,

Yours sincerely,

Sd/- P.J.Patel,

To

C.G.Kale, Esqr., C.I.E.,
Chief Engineer to Govt.,
Reconstruction Department,
Poona.

True copies.

Superintendent,
Office of the Chief Engineer,
Public Works Department.

The Honourable Minister for Agriculture & Forest mentioned to me recently that he was wondering if the woodwork like doors and window frames, door and window panels, staircase and such other types could not be made in the Workshop which was meant to be erected at Dharwar for the Agricultural College to be started there. The idea appeared to be to initiate the students into woodcraft and to make full use of the supervising staff, who will be engaged at the College for regular College work. The Superintendent or the Foreman of the proposed College Workshop may be able to engage local piece work carpenters and get them to make the required doors and window frames out of the teak wood which will be supplied by the Forest Department in cut scantlings at Dandeli, where a regular Timber-sawing Factory is already working. Another advantage may be that a saving is likely to be effected in the cost of woodwork, which will go into the College buildings.

2. I consulted the Agricultural Engineer to Government in regard to the existing facilities for practical Carpentry at the College of Agriculture, Poona and what was proposed for the various Workshops intended to be opened for the Agricultural Department in the Province. Mr.P.J.Patel had a discussion with me on the subject and he has sent me a Note in his D.O.No. II/5292 dated the 20th March 1947. From the D.O. it is clear that the Agricultural College students

are ..

Carpentry and they are only taught the first principles of cutting, planing, jointing and the like. Mr.Patel was very doubtful if the College students will have either the leisure or the inclination to carry out large scale exercises in the making of regular doors and windows for the College buildings. In regard to the proposed Workshops, which I understand may be 5, the one meant for Karnatak is proposed at Belgaum. According to his information, no Divisional Agricultural Workshop was proposed at Dharwar and the regular College Workshop which will be attached to the College, is meant for various Departments like Smithy, Casting, Carpentry and the like.

3. The staff engaged for the regular Carpentry tution in the Agricultural College, consists of only one Carpenter and one Blacksmith and similar is the staff attached to the Agricultural Engineer's Section in Poona. For the Divisional Workshops, however, quite a number of persons are proposed to be engaged and if what the Honourable Minister intends is the making of doors and windows and other woodwork under the supervision of either the Workshop Superintendent, Foreman or Teacher Foreman, it would be quite easy to erect one Carpenter's shed on the premises of the proposed College of Agriculture at Dharwar and to get the or more of the officers to arrange for the engagement of carpenter piece workers for turning out the requisite woodwork for the College. If this idea is confirmed and in the event of the Divisional Workshop not being located at Dharwar finally, the Superintendent and the Foreman

meant ..

work in advance at Dharwar temporarily for the purpose of getting work done by the carpenter piece workers. I am, however, to submit that the training that may be intended for the students will have no chance to be given, as the College buildings may be completed before the students are due for training at the final College location. The students are, I presume, not expected to be employed on the making of doors and windows, as it is neither a part of their training nor of their future profession. Professionally the Agricultural students will be expected to deal with Agricultural implements only which are quite different from the woodwork going into the permanent buildings.

4. It would be quite simple to insert a clause in the tenders to be invited for the main College building and the host of residential quarters, that doors and windows will be supplied free of cost at the site of work and the masonry contractor will have to fix those up free of cost. The panels of the doors and windows will be fixed by Government Agency. The P.W.D. will lay down a schedule for the supply of doors and windows and the Superintendent or the Foreman to be engaged on the College premises at Dharwar, with the help of the Storekeeper, will be expected to furnish the requisite materials and to keep accounts therefor. The P.W.D. will accept debits against the estimates of the College buildings.

5. I shall be grateful to have further instructions in the matter. I enclose a copy of the Agricultural Engineer's D.O. referred to above.

U.O.R.No.653/46-W.
Poona 1, 20 March 1947.

Public Works Department.

NEW AGRICULTURAL COLLEGE AT DHARWAR -

The Honourable Minister for Agriculture & Forest mentioned to me recently that he was wondering if the woodwork like doors and window frames, door and window panels, staircase and such other types could not be made in the Workshop which was meant to be erected at Dharwar for the Agricultural College to be started there. The idea appeared to be to initiate the students into woodcraft and to make full use of the supervising staff who will be engaged at the College for regular College work. The Superintendent or the Foreman of the proposed College Workshop may be able to engage local piece-work carpenters and get them to make the required doors and window frames out of the teak wood which will be supplied by the Forest Department in cut scantlings at Dandeli, where a regular Timber-sawing Factory is already working. Another advantage may be that a saving is likely to be effected in the cost of woodwork, which will go into the College buildings.

2. I consulted the Agricultural Engineer to Government in regard to the existing facilities for practical Carpentry at the College of Agriculture, Poona and what was proposed for the various Workshops intended to be opened for the Agricultural Department in the Province. Mr.P.J.Patel had a discussion with me on the subject and he has sent me a Note in his D.O.No. II/5292 dated the 20th March 1947. From the D.O. it is clear that the Agricultural College students

are ..

are not expected to do extensive practice in Carpentry and they are only taught the first principles of cutting, planing, jointing and the like. Mr.Patel was very doubtful if the College students will have either the leisure or the inclination to carry out large scale exercises in the making of regular doors and windows for the College buildings. In regard to the proposed Workshops, which I understand may be 5, the one meant for Karnatak is proposed at Belgaum. According to his information, no Divisional Agricultural Workshop was proposed at Dharwar and the regular College Workshop which will be attached to the College, is meant for various Departments like Smithy, Casting, Carpentry and the like.

3. The staff engaged for the regular Carpentry tution in the Agricultural College, consists of only one Carpenter and one Blacksmith and similar is the staff attached to the Agricultural Engineer's Section in Poona. For the Divisional Workshops, however, quite a number of persons are proposed to be engaged and if what the Honourable Minister intends is the making of doors and windows and other woodwork under the supervision of either the Workshop Superintendent, Foreman or Teacher Foreman, it would be quite easy to erect one Carpenter's shed on the premises of the proposed College of Agriculture at Dharwar and to get the or more of the officers to arrange for the engagement of carpenter piece-workers for turning out the requisite woodwork for the College. If this idea is confirmed and ~~if~~, in the event of the Divisional Workshop not being located at Dharwar finally, the Superintendent and the Foreman

meant ..

work in advance at Dharwar temporarily for the purpose of getting work done by the carpenter piece workers. I am, however, to submit that the training that may be intended for the students will have no chance to be given, as the College buildings may be completed before the students are due for training at the final College location. The students are, I presume, not expected to be employed on the making of doors and windows, as it is neither a part of their training nor of their future profession. Professionally the Agricultural students will be expected to deal with Agricultural implements only which are quite different from the woodwork going into the permanent buildings.

4. It would be quite simple to insert a clause in the tenders to be invited for the main College building and the host of residential quarters, that doors and windows will be supplied free of cost at the site of work and the masonry contractor will have to fix those up free of cost. The panels of the doors and windows will be fixed by Government Agency. The P.W.D. will lay down a schedule for the supply of doors and windows and the Superintendent or the Foreman to be engaged on the College premises at Dharwar, with the help of the Storekeeper, will be expected to furnish the requisite materials and to keep accounts therefor. The P.W.D. will accept debits against the estimates of the College buildings.

5. I shall be grateful to have further instructions in the matter. I enclose a copy of the Agricultural Engineer's D.O. referred to above.

Subject:- T. A. Bill of Rao Bahadur S.S. Salimath
Selection of site for Agricultural College
in Karnataka.

I have to state that Rao Bahadur S. S. Salimoth, the Retired Deputy Director of Agriculture, Headquarters, B.P., Poona was requested to visit Arabhavi, Bagalkot and Dharwar from 23rd August to 2nd September 1946, in connection with the selection of a site for the proposed Agricultural College for the Karnataka as per letter dated 28-8-1946 from Dr. Uppal, Principal, College of Agriculture, Poona, (c o p y enclosed).

Rao Bahadur S. S. Salimath has performed these journeys after his retirement, he has prepared his claims for T. A. as per rule No. 532 of B. C. S. R.. I would request that Government may please be moved to permit Rao Bahadur S.S. Salimath to draw T.A., for the reasons stated above.

The T.A. Bill of Rao Bahadur S.S. Salimath is sent herewith for perusal and return. Early orders in this connection are requested.

For Director of Agriculture,

135

College of Agriculture,
Poona, 20th August 1946.

Dear Mr. Cheema,

The Hon'ble Minister for Agriculture is visiting Arbhavi and Bagalkot on the 25th and 29th August, respectively, in connection with the selection of a site forthe proposed Agricultural College for the Karnatak. I have been instructed by the Hon'ble Minister for Agriculture to accompany him on these tours. I had suggested to the Hon'ble Minister that Rao Bahadur S. S. Salimath should be requested to accompany him but, as Rao Bahadur Salimath would be retiring from service to-day, the Hon'ble Minister had instructed me to take up with you the question of the visits of Rao Bahadur Salimath to the above places. I would be obliged if you would kindly request Rao Bahadur Salimath to visit the above places on the dates above specified. An early action is requested.

Yours sincerely,

Sd/- Dr. Uppal.

Dear

You may perhaps be aware that the Government of Bombay have decided to start an Agricultural College at Dharwar from June 1947. I enclose in this connection copy of a letter addressed by this Government to Mr. W.G.W. Reid, General Manager M.S.M. Railway, Madras and to Lt. Col. R.B.Emerson, C.I.E., O.B.E.,R.E., Chief Commissioner of Railways, New Delhi for the loan of M.S.M. Railway bungalow for period of one year. In view of the circumstances explained therein, I shall be very grateful if you will kindly use your good offices with the railway authorities concerned so that we may obtain the bung in question from the date required. I n hardly emphasize the importance of the matter, but you will no doubt realise th a whole year may be wasted if we are not able to secure the bungalow in question.

With kind regards,

Yours sincerely,

Patil

(M.P.Patil).

Subject:- Railway Bungalow.
Dharwar.
Lease of...

Sir,

I am directed to say that the Government of Bombay have decided to start an Agricultural College, at Dharwar from June 1947 so as to make available, as early as possible, suitably trained and qualified personnel for the agricultural development work con--templated in this Province. The main difficulty in starting the College, however, lies in finding suitable accommodation for housing the prospective students. Since provision of adequate hostel accommodation is one of the conditions laid down by the Academic Council of the University of Bombay for the affiliation of the College and as it is not possible to construct the necessary buildings during the very short time available before the commencement of the College, the only course is to hire such suitable buildings at the place as may be available.

After exhaustive and thorough enquiries, it has been represented to this Government that there are no buildings suitable for hostel accommodation excepting the M.S.M.railway bungalow at Dharwar used by Upper Subordinate Railway Officers. The starting of the proposed College is dependent upon adequate interim hostel accommodation being found by May, 1947; other--wise the University of Bombay will not sanction the

In these circumstances, as it is absolutely essential to obtain temporary hostel accommodation for the students and in view of the non-availability of alternative premises, I am directed by the Government of Bombay to request you kindly to place the Upper Subordinate Officers' bungalow at Dharwar at the disposal of this Government for use as a hostel for the students joining the Agricultural College from May, 1947. The accommodation will be required from May, 1947 to April, 1948, by which time the College will have its own necessary buildings ready for the purpose.

I am to add that in case the bungalow is made available to this Government as requested every care will be taken to maintain it in good repair and to hand it back in April, 1948 in good condition.

I am now to enquire if you would be so good as to let me know, as early as possible, whether it would be possible for the Railways to place the bungalow at the disposal of this Government for the period from May, 1947 to April 1948 and, if so, on what conditions.

Your obedient servant,

27/2

Dear Sir,

I beg to acknowledge receipt of your letter No. 1014-A of 27th February, and to advise you that the lease in question is a matter which is entirely within the discretion of the General Manager of the M. & S.M. Railway.

2. If the Rest House in question is in use today, it is most improbable that the General Manager will be able to see his way to agree to your request, since it is difficult enough to persuade subordinate officers to get out on the line at any time, and if their Rest House facilities are taken away from them, they will immediately plead their inability to go on line for lack of such facilities.

Yours faithfully,

Chief Commissioner of Railways.

DEPARTMENT OF AGRICULTURE.
New Delhi, the 19th March, 1947.

Dear Mr.Patil,

Your letter dated the 11th March, 1947 on the subject of obtaining a lease of the Railway bungalow at Dharwar for starting the Agricultural College there this year.

2 The Railway Board have been contacted. ~~and~~ I regret to state that they plead inability to interfere with a local administration in such matters. The officials of the Railway Board also consider that as the bungalow is required for officers on duty, it will not be possible for the local railway authorities to make it available.

3. I have, however, telegraphed the General Manager, M.& S.M.Railway adding my voice in support of your request. I shall let you know in due course what developments if any take place.

4. Would it be possible for you to offer some other building (e.g. a smaller one) in the neighbourhood to the Railway which they can use as a temporary measure.

Yours sincerely,

- INVITING TENDERS FOR THE BUILDINGS FOR AGRICULTURAL COLLEGE, DHARWAR -

Referring to R.C.D. letter No.1014/6951-A dated the 26th March 1947, I am to submit herewith a copy of public notice calling for tenders for the works mentioned in the Government letter.

2. The cost of individual works assumed at pre-war plus 50% excess rates is as follows :-

		Rs.
(1)	Agronomy & Chemistry Block ..	1,71,560
(2)	Biology Block	1,69,265
(3)	Hostel	1,73,716
(4)	Kitchen and Dining Hall ..	17,700
(5)	Principal's Bungalow ..	24,411
(6)	Hostel Superintendent's bungalow	13,206
(7)	Five Blocks Servants' Quarters	1,42,000
	TOTAL	7,11,858

3. A set of blue prints is attached.

Chief Engineer,
Public Works Department.

D.A. :- 1 copy of Public Notice.
1 set of blue prints.

Copy forwarded to the Chief Engineer & Secretary to Government, P.W.D., Bombay, for information.

2. In the conditions of contract it has been stipulated that steel for reinforcement will be supplied by Government at site of work at a stipulated rate of Rs.18/- per cwt. It will, therefore, be necessary for Government to issue permits for the purchase of the steel in favour of the Executive Engineer, Dharwar Division, as soon as possible. A detailed statement showing the quantities of steel required for each Block and in total, is attached and I now request Government to please arrange for obtaining the steel, as soon as possible. If any difficulty is expected in the release of the required steel, H.M. Agriculture and Forest has kindly consented to try his best for the same at Delhi and hence the question may be referred to him, if at all found necessary.

3. A set of plans accompanies.

Copy submitted to H.M.Agriculture & Forest, with a copy of the notice.

Copy forwarded to the Executive Engineer Building Projects Division No.1, Poona.

PUBLIC WORKS DEPARTMENT

NOTICE TO CONTRACTORS

---oO•---

Sealed tenders in B-2 (Item rate) Form are invited for constructing buildings for the Agricultural College at Dharwar (Yettangudi), estimated to cost Rs.7,11,858 approximately and will be received by the Executive Engineer, Building Projects Division (No.1), Poona 1, in his office at Poona upto 3 p.m. (S.T.) on Wednesday, 7th May 1947 and will be opened the same day. Rs. 7119 as earnest money should be paid into the Reserve Bank of India or nearest Government Treasury and the receipted chalan attached to the tender which should also be accompanied by a solvency certificate or Banker's certificate of financial stability without which the tender shall not be considered.

2. Blank tender forms can be obtained on payment of Rs. 5/- per copy from the above named office, during office hours on all working days upto 5th May 1947, where the plans and contract documents can also be seen.

3. The contractor shall quote the rates in words and figures and work out the amounts for each item and the total given at the end. No alteration in the form of the tender or in the schedule of quantities and no addition in the shape of special stipulation shall be permitted.

4. Tenders which do not fulfil any of the above conditions or those in the printed tender and are incomplete in any respect, will be rejected.

5. Acceptance of the tender rests with the Chief Engineer, P.W.D. who reserves the right of rejecting any or all tenders without assigning any reasons.

These papers may be returned u.o. to the R.C.D. with an intimation that the demand of the Chief Engr. P.W.D., for 168 tons of steel bars required for the Agricultural College, Dharwar, was proposed to be forwarded to the I.& S.Controller, Calcutta. In the meanwhile, however, the Chief Engr. has informed Government that 80 tons of steel required for the first stage of the work is being obtained from the surplus stock held by the Military. He has already received an authorisation for this quantity from the Govt. of India and has requested Govt. to ascertain the price and inform him if a formal indent should be placed by him direct or through Government. The Principal, College of Engineering, Poona, has also been requested to carry out laboratory tests of the bars. The expenditure on this account will be debited to the Agricultural College.

-- Buildings for the Agricultural College at Dharwar --

As requested on the 23rd instant will you kindly supply the Executive Engineer, Building Projects Dn., No.1, with a complete list of structures which you want constructed at the Agricultural College at Dharwar during the next winter so that the plans and estimates therefor could be taken into hand for preparation immediately. The list should not only contain farm buildings required over the whole proposed estate but also contain a list of residential accommodation required for the staff. I suggest that the list may kindly be got approved by Govt. before it is forwarded to the Executive Engineer so that the Finance Department may not raise objection at a late stage.

Copy (with plans and estimates) forwarded to the Reconstruction Department for favour of according administrative approval to the work.

2. The plans and estimate are generally in order subject to the remarks contained in the accompanying note by the Chief Engineer, Roads and Buildings, dated the 17th March 1947 (copy enclosed).

By order of the Governor of Bombay,

D. N. Padwala

For Secretary to the Government of Bombay,
Public Works Department.

25/3/47.

Reconstruction Deptt.

The P.W.D. may be requested u.o. to forward to this Deptt. the Ch. Engr (Roads & Bldgs') note, dated 17/3/47, referred to in its endt. as it has not been received in this Deptt.

2. The expdre on account of the construction of bldgs, etc, for the Agrl. College, Dharwar, is debitable to the head "81-Civil Works-Not charged to Revenue" (vide Govt. Corrigendum No. 1014 & 24/1/47). The expdre in this case is therefore debitable to the head "81-Civil Works-Not charged to Revenue" and not to the head "50-Civil Works-Original works (Bldgs) Agriculture" as given in the estimate. The P.W.D. may see u.o. for confirmation.

3. The work of construction of the bldgs of the Agrl. College, Dharwar, is to be executed by the Ex. Engr, Bldg Projects Dn. No 1. It is not clear why the estimate has been prepared by the Ex. Engr, Dharwar Dn. and not by the Ex. Engr, Bldg Projects Dn. No 1. The P.W.D. may be requested u.o. to clarify this point.

~~The~~ file No. 8315/36-II reqd for the disposal of this case has been ~~[illegible]~~ to the F.D. on 28-3-47. It may be ancilled.

Note by the Chief Engineer, Roads & Buildings, dated the 17th March 1947, on the plans & estimates for the work of construction of the New Agricultural College, Dharwar.)

Plan and estimate for 'carrying out Additions and Alterations to the Cotton Breeder's Laboratory in Dharwar Farm':-

i) In item No.5 of the estimate, quantities of brick masonry of short walls have been wrongly worked out which should be as shown in pencil in the measurement sheets.

(ii) Item No.7 of the estimate provides for 3' x 4' windows while on the plan some of the windows have been marked as 2' x 3'. The plan should be corrected as required.

2. Plan and estimate for 'constructing a kitchen block for the Inspection Bungalow at Dharwar Farm':-

(i) Item No.10 of the estimate provides for barge boards only on the sides of the front sloping portion of the roof. Provision for barge boards on the sides of the rear sloping portion has remained to be made.

(ii) In the X-section A-B of the building, the front wall will be seen in section and the pillar in it in elevation. The drawing should be corrected accordingly.

(iii) The position of the sink and chulla should be shown on the plan.

3. Estimate amounting to Rs.6,254 for 'carrying out Additions and alterations to the buildings in Dharwar Farm for the use of Agricultural College, Dharwar'.

(i) The general description on the estimate does not give a correct idea of the provisions made in the estimate. The estimate provides also for furniture required for the use of the College laboratories. This should be mentioned in the General Description.

RECONSTRUCTION DEPT. File No. 1014 24 APR 1947 Serial No. 3 A

Recd. R.C.D. (with plans & est.) of 24-4-47

Submitted with reference to the office note, dated 2/4/47

2. It appears from para 3 of the P.W.D note that the plans and estimates of the Agl. College, Dharwar, are prepared by the Ex. Engr., Bldg Project Dn No 1. It is not clear why in the present case the plans and estimates have been prepared by the Ex. Engr., Dharwar Dn and not by the Ex. Engr., Bldg. Projects Dn. The P.W.D. may be requested u.o. to elucidate this point.

3. The Ex. Engr., Bldg Projects Dn No 1 had recently submitted plans and estimates, the latter amounting to Rs 15,26,350, for the work of construction of bldgs immediately reqd in connection with the Agl College, Dharwar. The main papers on the subject were referred u.o. to the P.W.D & F.D. on 14/4/47, with draft orders according administrative approval to the plans and estimate.

It is presumed that the estimate of Rs. 53,187 now forwarded by the Ex. Engr., Dharwar Dn, is in addition to the estimates of Rs. 15,26,350 referred to in para 3 above and that it is not included in the estimate of Rs. 15,26,350. The P.W.D. may be requested u.o. to state whether this presumption is correct. The inquiry in para 2 above is necy in order that there may be no duplication of work. The P.W.D. may be requested to treat this case as very urgent.

REVENUE DEPARTMENT.

Bombay Castle, 17th June 1947.

LAND ACQUISITION ACT, I OF 1894.

No. 4563/45.—Whereas by Government Notification in the Revenue Department, No. 4563/45, dated 6th June 1947, it was notified that the lands specified in the schedule hereto were needed for the purpose stated in the said notification, viz., for the Agricultural College at Dharwar.

And whereas the Government of Bombay is satisfied that the lands are needed for a public purpose as stated above.

It is hereby declared under the provisions of section 6 of the Land Acquisition Act, 1894 (I of 1894), that the said lands are needed for a public purpose as stated above.

The Prant Officer, Dharwar Division, Dharwar, is hereby appointed under clause (*c*) of section 3 of the said Act to perform the functions of a Collector for all proceedings hereafter to be taken in respect of the said lands. He is also directed under section 7 of the said Act to take order for the acquisition of the said lands.

And whereas the acquisition of the said lands is urgently necessary; the Government of Bombay is further pleased to direct, under sub-section (*1*) of section 17 of the said Act, that the Collector shall, on the expiration of fifteen days from the publication of the notice relating to the said lands under sub-section (*1*) of section 9 of the said Act, take possession of all the waste or arable lands specified in the Government Notification aforementioned.

A plan of the said lands can be inspected at the office of the Prant Officer, Dharwar Division, Dharwar.

RECONSTRUCTION DEPT.
Dte No. 1014
B 1731

To

The Secretary to Government,
Agriculture and Rural Development Department,
Secretariat, Bombay.

I enclose herewith a copy of letter No. B-1/1797, dated 7th June, 1947, from the Principal, College of Agriculture, Dharwar, in which he represents that he may be allowed to continue to occupy the Inspection Bungalow on the Dharwar Farm, where the College of Agriculture, Dharwar, is temporarily located for a period of one year until the buildings on the permanent site at Narindra are ready for occupation. The Principal, College of Agriculture, Dharwar, is entitled to the concession of rent-free quarters and, as he is required to stay in the premises of the College according to the rules of the University of Bombay, I would request you to be so good as to move Government to allow the Principal College of Agriculture, Dharwar, to occupy the Inspection Bungalow on the Dharwar Farm without paying rent for it, since there is no other suitable building on the Farm.

Director of Agriculture

No.B-1/1797 of 1947
College of Agriculture,
Dharwar, 7th June, 1947

To

The Director of Agriculture,
(Research & Education),
College of Agriculture, Poona.

I am enclosing herewith a copy of the letter of the Executive Engineer to the Sub-divisional Officer, Dharwar, a copy of which is forwarded by the Deputy Engineer, Dharwar to me for immediate report.

I am occupying the Inspection Bungalow on the Dharwar Farm(which is now converted into the Agricultural College, Dharwar) in my capacity as the Principal of the College from 4th January, 1947 i.e. from the date of my appointment as the Principal.

In this connection I may point out that it is obligatory for the Principal to stay on the College Estate as per one of the conditions for the affiliation of the College of Agriculture, Dharwar, to the University of Bombay. As per Government Resolution, Reconstruction Department No.1014 of 10th February, 1947, the Principal is entitled to the rentfree Government quarters. Accordingly I would request you to approach Government to allow me to occupy the Inspection Bungalow on the Dharwar Farm- now the College estate-free of rent from the date of my appointment as the Principal, College of Agriculture, Dharwar i.e. from 4th January 1947, till the time the College moved to the new estate and the bungalow for the Principal is ready for occupation there.

sd/-H.M. Desai,
Principal.

College, Dharwar, to occupy the Inspection Bungalow on the Dharwar Farm free of rent with effect from 4th January 1947 till the College is moved to its permament site at Narendra and the bungalow for the Principal is ready for occupation there.

2. The letter and endts. overleaf may issue after u.o.r. to the P.W.D. & the F.D.

19/6/47

The Dir's proposal may be agreed to in view of 'A' on page 3 ante.

- LAYOUT OF THE BUILDINGS FOR THE AGRICULTURAL COLLEGE AT DHARWAR -

The Consulting Surveyor to the Government of Bombay has made out a layout for the proposed buildings at Dharwar for the Agricultural College, the Executive Engineer, Dharwar Division, has made his own layout, the positions of the bungalows for the Principal and the Hostel Superintendent, are being proposed at different places by the officers concerned and now the Dairy Section wants a complete change of site from what was shown by the Executive Engineer, Dharwar Division. Thus there is no unanimity of views and it is necessary to fix our ideas once for all before the Consulting Architect to Government (Jr.), can give us a finished final layout.

2. Mr.Talim, the Assistant to the Consulting Surveyor, came to see me today and I asked him to await a decision from you prior to renewing the work of layout. I suggested to him that you and he should meet H.M., Agriculture on Sunday the 3rd August in Poona at such time as would suit H.M. and get final orders. May I request you to fix up this engagement and inform the Consulting Surveyor direct, so that he can come prepared with all his papers. It appears to me that while fixing this appointment you will have to consult the Heads of Departments at the Dharwar Agricultural College and arrive at your own decision.

Chief Engineer,
Public Works Department.

D.A. : Nil.

Copy forwarded to the Consulting Surveyor to the Government of Bombay, with reference to Mr.Talim's interview with the Chief Engineer, P.W.D. on the 22nd instant.

2. The Consulting Architect has been instructed to prepare a block of general layout plan for the proposed Veterinary College at Poona but difficulty is experienced because of certain unsettled points, viz. whether the compound of Mr.Valchand Hirachand's bungalow should be left out; whether the land between the College and the Ganesh Khind road should be given to the Vijay (?) Housing Scheme, as apparently the Revenue Department wants to do and whether the College should be shut off from the main road altogether. These are points which need a decision before a proper layout can even be attempted. It is suggested that these points should also be taken up with H.M.Agriculture at the time of his interview on the subject of the Agricultural College, Dharwar.

Copy submitted to H.M.,Agriculture.

bsr.22/7.

Submitted for orders with ref.to H.M.(Agre)'s note, dated the 29th July 1947.

2.File No.1014-IV regarding construction of buildings at the Agrl.College,Dharwar, is put up. The layout plans of the College are not available.

3.The question of selection of a site for the Veterinary College at Poona has not been finally settled as yet.The Director of Agre.(Extension) has intimated that the Maharastra University is likely to be located in the Ganeshkhind Govt.House,Poona and Govt.lands in gaothan which have been allotted for the Maharashtra University can be reserved for the Veterinary College. The Dir.of Animal Husbandry and Veterinary Science has not formulated as yet his proposals in regard to the selection of the site for the Veterinary College.It will not thus be possible at present to decide the points mentioned in para.2 of the Chief Engr's endorsement dated 22nd July 1947.

1/8/47

Secy. H.M. Agre will personally discuss this matter with Dr. Kupar & the Consulting Surveyor when he is at Poona this week end. These papers may be submitted to him.

No. S-186/8298 of 1947. Poona 1, 1-a ~~March~~, 1947.

To

The Secretary to Government,
Reconstruction Department,
B O M B A Y.

Subject:- Manjri Training Centre.
Provision of furniture at the---

Reference my letter No.S-186/42057 of 12th December 1946 on the above subject.

The Principal, College of Agriculture, has informed me that th Deputy ~~Executive~~ Engineer, Building Construction Sub Division, Poona, has in accordance with the Government Letter, Public Works Department No.6844/36(a)-R.I. of 24-4-46, prepared 53 dining tables & 53 benches for the hostel at Manjri and sent the same to the Principa College of Agriculture, Poona. It is proposed to admit 150 candidat for the Agricultural Assistant's course at the Agricultural Training Centre, Manjri, and hence it is not possible to make use of ten dinin tables and benches as there is no room for placing these tables in the dining hall at Manjri. The Principal, College of Agriculture, Poona, considers it necessary to transfer 30 tables and 30 benches to the Agricultural College, Dharwar and the rest retained in the Agricultural College, Poona. The expenditure on account of the purchase of 53 dining tables and chairs prepared for the Agricultural Training Centre, Manjri is debitable to the grant for the constructio of hostel at the Agricultural Training Centre, Manjri and is payable to Executive Engineer, Poona, Division, Poona.

Under the circumstances, I would request that Government may be....

be moved to sanction the transfer of 30 dining tables and benches to the Agricultural College, Dharwar, as suggested by the Principal, College of Agriculture, Poona.

The favour of very early orders of Government in the matter is requested.

For Director of Agriculture,

K/28.

Copy forwarded with compliments to the Principal, College of Agriculture, B.P., Poona, for information ~~xx~~ with reference to his letter No. 83/14" of 14-3-1947.

K/28.

It appears from the Diary of Receipt that the Dir.'s letter No. S-186/42057, dated 12th Dec. 1946 was received in R. C. D. and was registered under NO. 9246/33-33817-A. However, it does not appear to have been received in A branch, as there is no entry in the Post Book for A branch maintained by the Registry and also in the G. D. C.'s diary. The letter appears to have been misplaced somewhere in the Registry. Efforts were made to trace the letter in question, but to no avail. The letter and the papers underlying it are absolutely necessary for disposal of the Dir's present letter. Effort are still being made by A branch as well as Registry to trace the correspondence. In the meanwhile a copy of the Dir's letter of 12th Dec. 1946 may perhaps be called for from him. The letter overleaf may issue.

23/4/47

In the meanwhile let Supdt. Regy try to find out in which section of Regy. it was lost etc.

Copy of letter No.S-186/42057 of 12-12-46 addressed to Government, Reconstruction Department, Bombay regarding Manjri Training Centre - Provision of furniture at the ---

========

Reference Government letter, Reconstruction Department, No.9246/33-26501-A of 28-10-46 on the above subject. The Principal, Agricultural College, Poona, who was consulted in the matter reports to me that the provision of furniture for the dining hall at the Manjri Training Centre is not essential now.

The accompaniments sent with the above quoted Government letter are herewith returned.

put up as ~~file~~ of another case.

The file has since become available.

The Dir. of Agre. in his letter, No.S-186/8298, dated the 1st April 1947 requested for Govt. orders sanctioning the transfer of 30 dining tables and 30 benches out of the 53 tables and 53 benches received by the Principal, College of Agre, Poona from the Dy.Engineer Building construction Sub-Division Poona, to the Agril.College, Dharwar. This furniture was supplied to the Principal in accordance with the orders issued in P.W.D. letter, No.6844/36(a)-R-I, dated 28th April 1946 for the Manjri Training Centre and the Dir. proposed the transfer of the above mentioned articles for want of room for placing them in the dining hall at Manjri. Attention in this connection is invited to the Dir. of Agre(R.&.E.)'s recent letter, No.0/5346, dated the 23rd June 1947 in which it has been stated by him that 30 tables and 30 benches were supplied to the College of Agre, Dharwar from the stock at the College of Agre, Poona and requested that the furniture may now be replaced and accordingly asked for Govt. sanction to the purchase of 30 tables and 30 benches at a cost of Rs.2,100/-. Presumably, these are the same tables and benches, proposed to be transferred by ~~him~~ the Dir of Agre to the College of Agre, Dharwar, as stated above. If this is so, It is not understood, in view of 'A' above, why the Dir. now wants the articles to be ~~the~~ replaced.

He may, therefore, be asked to clarify

the-

the point and furnish the information called for in G.L. No.1014/18547-B, dated the 1st July 1947.

The appended draft letter may issue.

15-7-47

No. O / 5346 of 1947.
College of Agriculture,
Poona, 23 June, 1947.

RECORD ROOM SECT.
File No. 1014
25 JUN 1947
B/18547

To

The Secretary to Government,
Agriculture and Rural Development Department,
Secretariat, Bombay.

In connexion with the affiliation of the College of Agriculture, Dharwar, some quantities of furniture were required to be supplied immediately for equipping the hostel of that institution and, as this furniture was to be supplied before the Local Enquiry Committee of the University of Bombay visited Dharwar, 30 benches and 30 dining tables were supplied from the stock at the College of Agriculture, Poona. This furniture should now be replaced, and accordingly, I had invited quotations from local dealers in Poona, since this work could not be undertaken by the Yeravada Central Prison. It may also be noted that it will be very inconvenient to purchase this furniture through the Stores Purchasing Officer, Bombay. In these circumstances, I would request you to move Government to sanction the purchase of 30 benches and 30 dining tables at a cost of Rs.2,100 from a local dealer in Poona, to replace the furniture supplied to the Principal, College of Agriculture, Dharwar. The cost of the above furniture will be met from the grants sanctioned for the College of Agriculture, Dharwar, for the year 1947-48.

Director of Agriculture
(Research & Education),
Bombay Province.

The Dir.of Agre.(Research and Education) has not furnished the details of the allotment of Rs.2,100/- reqd. for the purchase of 30 benches and 30 dining tables.In the absence of this information the F.D. will not agree to the Dir's proposal.The Dir. may accordingly be asked to furnish the information.He may be asked to specify the rates quoted by the various dealers for the furniture.The letter overleaf may issue.

AGRICULTURAL COLLEGE, DHARWAR

Dear Malta,

I could not see you yesterday the 10th instant afternoon, in Bombay, as you were busy in a meeting.

2. I enclose a copy of my notes regarding the Agricultural College, Dharwar, and I would request you to communicate H.M., Agricultural's approval to the location of the Principal's and Hostel Superintendent's bungalows, as proposed by me. H.M., Agriculture yesterday personally appeared to have approved of the location. In regard to the supply of cement, H.M. desired that you may take special action, in order to secure wagons for the carriage of cement. My office has already addressed the Honorary Cement Adviser to give us the quota with an assurance, as in the absence thereof we may have to use lime mortar masonry in place of cement mortar. I enclose a copy of my last letter to the Honorary Cement Adviser. The progress and completion of the buildings for the Agricultural College, Dharwar, will very much depend upon the steady supply of cement, as my experience recently has been that in spite of the cement being available or promised, its carriage by rail is becoming extremely uncertain and very often impossible. If Government approval to the suggestion to use lime mortar can be given, I shall be so glad.

3. In the matter of the bull-dozer, which is to be ..

69/1/b
1014
B-20234

be brought from Avadi, near Madras, to Dharwar, a similar action to press for a railway priority will have to be taken by you, in the absence of which I apprehend the bull-dozer will not come to Dharwar. H.M., Agriculture, directed me to mention this point to you in particular.

Yours Sincerely

Allaley

No.653/46-W.

Chief Engineer,
Public Works Department,
Poona 1, 9 July 1947.

- AGRICULTURAL COLLEGE BUILDINGS AT DHARWAR -
- H.E.F.M.'S INSPECTION ON 5TH JULY 1947 -

The Principal, Agricultural College, Dharwar the Executive Engineer, Dharwar Division and the Assistants of both were present during the inspection. The lining out of the two Laboratory Blocks and Hostel Blocks has been carried out and the same was approved.

2. Principal Desai represented that the Principal's Bungalow and the Bungalow for the Hostel Superintendent, should be as shown by him to the right and left of the main Administrative Block. The Chief Engineer did not accept the suggestion as H.M. did not appear to be in favour. It was then suggested by the Principal that the Principal's Bungalow should be in Blocks 1 & 2 in main Residential Block 3 and that the Hostel Superintendent's Bungalow should be on plot No.2 in block of buildings A. I promised to convey H.M., P.W.D's orders on these points, at an early date. Personally I accepted the suggestions.

3. It is considered necessary to test the recuperative strength of the village tank which is proposed to be used for water-supply to the College. I do not consider that from the health point of view it would be possible to use this water for drinking purposes but that it would be quite suitable for flushing, gardening and irrigation purposes. The Executive Engineer was asked to carry out a test by means of an oil engine and pump, for a period of twelve hours, in order to see if the supply to the

tank ..

tank is a live one and if so, what the recuperation from that may be expected. The contents of the tank would also be calculated by the Executive Engineer.

4. The next point to be decided was in regard to the water-supply to the College Hostel and the Farm Buildings. The bore-hole in Survey No.96 shows slightly brackish water and as there is no other better source, it is decided to construct an open well there. The Executive Engineer stated that he had an estimate for a 30 ft. diameter well ready and that he can commence the construction of the well, at an early date. The Executive Engineer was requested to submit the plan and estimate for the well and to invite tenders, as soon as possible, so that after the administrative approval was given the construction work could commence. This is an urgent work as water-supply is one of the important points to be decided in regard to this College.

Bore-hole No.3 gives ample supply but the water is reported to be salty. Failing any other source, this water may have to be used for the flushing of latrines, gardening and such other purposes, reserving the water of the well in Survey No.96 for potable purposes. The Tettangudi well in Survey No.93, though has yielded sweet water, is not expected to yield large supplies. It was considered necessary to test the yield of this well also and to find out if a well nearby can give larger supplies. The Agricultural Department may try a bore adjacent to this well for this purpose.

5. The Executive Engineer stated that

the plan and estimate ready for the main approach road to the College from the Dharwar-Belgaum Road. I asked him to submit the same, as soon as possible. It was decided to put in three rows of 48" diameter humo pipes for the crossing on the large nala.

6. It appears that we are not likely to meet with very hard murum foundations for the Laboratory Blocks and the Hostel Blocks and that it would be necessary to put in an R.C.C. Block at the top of the plinth. If we could get flat-bottomed rails three could be put in in the 6" concrete block already provided in the estimate and I requested the Executive Engineer to make enquiries from the local Railway Divisional Engineer and also promised to write to the General Manager, M. & S.M. Railway. I have done the latter and a reply is awaited.

7. The Principal suggested that we might approach the Dharwar Municipality to give drinking water-supply from their main at a maximum rate of 60,000 gallons per day. This would involve (a) the ability of the Municipality to spare this water every year during summer and (b) the cost of a pipe line which might be about two miles. The Executive Engineer is asked to consult the Municipality and then report what length and what size of pipe will be required and what the cost was likely to be of this main at the current prices. In the meanwhile it is quite clear that we shall require a very lengthy length of 1½", 1" and ½" pipes. The approximate quantity should please be worked out, so that Government may be approached to look out for

this essential commodity into the market and purchase it no longer it is available.

8. The Principal enquired what was being done about the other farm and dairy buildings required in May 1948. He indicated that similar buildings constructed at the Agricultural College, Poona, though much larger in dimensions, can be adopted as type plans for the Dharwar College. (I found on inquiry from my office in Poona that Dr.Uppal has not so far found it possible to send us a complete list of his requirements for the purposes of planning and estimating under this Head. He has since been reminded.)

9. The Finance Department took generally considerable time in giving consent to the construction of residential buildings and I indicated that it would be necessary for Dr.Uppal to get the Finance Department's advance concurrence to every single proposed residential quarter for the College and Farm at Dharwar. It would then save this office unnecessary work.

10. It would be necessary to get 1,600 tons of cement for the buildings now in hand at the rate of about 200 tons per month and in the absence of this, it would be impossible to complete the buildings, unless of course, the use of lime mortar was approved. The Chief Engineer has included this demand in our requirements of cement and he would approach the Honorary Cement Adviser on this point immediately.

11. The Principal indicated that the Chemical Laboratory would require a Gas Plant and other

asked the Sub-Divisional Officer in charge of these buildings to ascertain all such requirements from the Principal immediately and start inquiries for the construction thereof. It may be necessary to get quotations from firms for the supply of Gas Plant etc. The Executive Engineer should pursue this point well in advance.

12. The Principal pointed out that the size of 23' x 26' for the Biology Class Room was very small and that it had better be bigger. On going through the plans it is found that it is possible to make this room 26' x 40' just like similar rooms on the ground floor but it is pointed out that this Class Room is really a <u>surplus one</u> and we are also providing Class Rooms in the proposed Administrative Block. However, if Dr.Uppal wants this room to be made larger, as suggested above, orders should be given to the Executive Engineer, Dharwar Division prior to the excavation of foundations. It will make no change in the cost of the works.

The contractor desired that his indent for timber should be forwarded by the Executive Engineer, as soon as possible.

2. He was thinking whether he should not give uncoursed rubble masonry walls to the bungalows of the Principal and the Hostel Superintendent, in preference to using bricks, the stone, of course, being the Mugat stone. The Chief Engineer sees no objection to this, provided the cost is not increased to Government and that the pointing and the size of stones

on the exposed faces are satisfactory. In regard to this point it is just possible that the contractor may prefer to use stone in place of bricks which have to be hauled from a long distance. He is, of course, arranging to get table mould bricks from the Tile Manufacturers at Khanapur who have regular permanent kilns. The suggestion would be acceptable to this Department if there is no increase in cost and since a rate for stone masonry has already been included in the tender, it would be possible to allow Rugat stone for this work with the local iron stone backing, if that does not increase the cost. The Executive Engineer was requested to deal with this aspect if the contractor makes such an offer. The P.W.D. would not, of their own accord, raise this point but if it is going to lead to expedition, it is worth consideration at a very early date.

Sd/- C.G.Kale,
9/11.
Chief Engineer,
Public Works Department.

Copy forwarded to :-

Dr.S.N.Uppal, M.S.A., Ph.D., Director of Agriculture (Research & Education), with particular reference to paragraphs 2,3,8,9,11 & 12 above. The Chief Engineer would be prepared to accompany Dr.Uppal for the discussion with the Finance Department, in regard to all the residential buildings to be proposed at Dharwar.

--

The Principal, Agricultural College, Dharwar.

--

The Superintending Engineer, Southern Circle.

--

The Executive Engineer, Dharwar Division, for taking up the above points at an early date.

--

The Executive Engineer, Building Projects Division No.1.

--

Copy submitted to H.E. Agriculture. His orders in regard to location of the Principal's bungalow would be obtained personally and communicated to the other officers.

True Copy

Copy of letter No.653/46-W dated the 9th July 1947 from the Chief Engineer, P.W.D., Poona 1, to the Honorary Cement Adviser, P.B.No.572, Bombay, with a copy to the Executive Engineer, Dharwar Division.

- AGRICULTURAL COLLEGE BUILDINGS AT DHARWAR -
- CEMENT FOR THE -

"I am to invite reference to my endorsement No.653/46-W dated the 16th June 1947 and to enquire if the cement required by Messrs.K.B.Chinchankar & Co., Ltd. at the rate stipulated by them in their letter of even date, forwarded by me, may be assuredly expected to be supplied.

2. A similar request has already been made by the Executive Engineer, Dharwar Division to the Deputy Secretary to the Government of Bombay, P.W.D. who must have passed on to you the Executive Engineer's requirements."

True Copy.

Superintendent,
office of the C.E.P.W.D.

A.R.D.

These pps. may be submitted to H.M.(Agre) for orders whether the location of the Principal's and Hostel Supdt's. Bungalows proposed by the C.Engr, P.W.D., Poona, and the suggestion made by him to use lime mortar should be accepted.

2. As regards the requirements of wagons for the transport of cement, the Chief Engr. may be asked to specify the number required and the stations from and to which the cement is to be moved. On receipt of the Chief Engr's report, the Secy., Board of Transport, will be asked to move the Regional Controller of Rly. Priorities to grant the necy. priorities for the wagons.

x/pp.5-6.

3. As regards para.3 of Mr.Kale's d.o., the Secy., Board of Transport, has already been asked to move the Regional Controller of Rly. Priorities to grant a high priority for the transport of the bull-dozer from Avadi to Dharwar. No further action is called for on this point.

14/7/47.

Secy. 14.7.47

H.M.(Agre.) C-E-'s proposal for location of bungalows may be approved. However his suggestion regarding use of lime mortar instead of cement may not be approved.

Efforts should be made to get transport facilities for cement as early as possible.

VERY URGENT.
No.653/46-4.

Chief Engineer,
Public Works Department,
Poona 1, 19 July 1947.

To

The Chief Engineer & Secretary to Govt.,
Public Works Department, BOMBAY.

- AGRICULTURAL COLLEGE BUILDINGS AT DHARWAR -

The work of construction of buildings, viz., two Laboratory Blocks, Students' Hostel, Servants' Quarters and Bungalows for the Principal and the Hostel Superintendent, has been given on contract to Messrs.K.B.Chinchankar & Co., Ltd. and the tender stipulates the use of cement mortar in the whole construction. Government has not undertaken to supply cement to the contractor but Government has agreed to give reasonable facilities for issue of permits for the procurement of controlled articles. Thus : "Government will give reasonable facilities to the contractor to enable him to obtain controlled materials at controlled rates, as may be fixed from time to time. The contractor, however, shall not be entitled to claim any compensation or time limit on account of the non-supply or delay in obtaining the necessary supply at controlled rates."

2. The position in regard to the supply of cement is, however, very difficult and I have experienced very great difficulty in completing the work of the Anatomy Block in Poona for lack of cement. The Regional Honorary Cement Adviser has intimated the Deputy Secretary to the Government of Bombay, P.W.D., in his letter No.RA/13/2876 dated the 7th July 1947 that he is unable to issue an authorization for the cement required or delivery at the stipulated rate for constructing the Agricultural College buildings at Dharwar. In order to complete the buildings in the given time the rate of delivery of cement should be not less than 200 tons per month. In regard to the Railway wagons the Agricultural and Rural Development Department has asked the Secretary, Board of Transport, to make the requisite rail transport available from Shahabad to Dharwar for the construction of the buildings under reference. As, however, there is a strike at Shahabad and as the Honorary Cement Adviser is unable to issue authorization it is obvious that the contractor will be unable to get supplies of cement and I apprehend that not only will the steady progress of work be hampered but the work may come to a dead stop on certain occasions.

3. As the completion of the buildings at Dharwar is essential to meet the requirements of the University of Bombay, it appears to me to be very desirable and necessary to construct the buildings in lime mortar, as we used to do before cement came into universal use. Cement will, however, be used for R.C.C. coping at the top of plinth, in lintels, in beams and floor slabs, in cement pointing and such other essential items of work but for all other items of masonry I recommend that lime mortar should be freely used without exception. I see no other way out of the difficulty until such time as the supply of cement can be assured.

4. Though the Superintending Engineer, Southern Circle, under whom the construction has been entrusted

to ..

to the Executive Engineer, Dharwar Division, has certain powers to change the specifications ~~but~~ he will be unable to change the specification for items of masonry already entered in the tender. Audit will construe the substitution of lime mortar for cement mortar in the sanctioned items as new items of work and as such not within the power of the Superintending Engineer to sanction. It will, therefore, be necessary for Government to authorize the Superintending Engineer, Southern Circle, to substitute "lime mortar" for "cement mortar" wherever it appears in foundation concrete and items of masonry, without any payment of extra cost. On receipt of such authorization the Superintending Engineer will ask the contractor to carry out the work in lime mortar, including cement pointing, at the rates already quoted by him, in view of the fact that he will be unable to complete the work in time and in that event be open to serious penalty under the clauses of the contract. The authorization sought for can only be given by Government and hence this letter. I enclose a copy of my letter No.653/46-W dated the 9th instant, addressed to the Executive Engineer, Dharwar Division, on this very subject.

5. I consider the matter to be of very great importance and orders of Government may be communicated direct to the Superintending Engineer, Southern Circle, as soon as possible.

Public Works Department,
Bombay Castle, 28th July 1947.

To

The Chief Engineer, Public Works Department.

Subject :- Agricultural College building at Dharwar.

.....

Reference : Your letter No.653/46-W, dated the 19th July 1947.

2. If as stated by you great difficulty was experienced in completing the work of Anatomy Block at Poona for lack of cement, it would have been better to call for tenders for the Agricultural College buildings at Dharwar for the alternative items with lime. In future tenders should be called for for all possible alternative items.

3. The change of cement to lime would be required in a majority of items in the present case and all such items with the use of lime will have to be treated as extra items.

4. The rates proposed by you for the items with the use of lime mortar are the same as those for cement mortar. It is observed that the works with lime mortar

are ...

are generally cheaper than those with cement mortar. Before, therefore, passing orders in this case, Government would like to see comparative rates for the items with the use of cement and lime as per the Schedule of Rates in force at present for the Dharwar District and it should be stated how they compare with the contractor's rates.

5. I am to request you to submit necessary information as soon as possible.

By order of the Governor of Bombay,

D. N. Parmwala

for Under Secretary to the Government of Bombay, Public Works Department.

Subject : Purchase of an alarm time-piece for the use of the Dairy Section of the College of Agriculture, Dharwar.

The Principal, College of Agriculture, Dharwar, has represented to me that an alarm time-piece is urgently required for the Dairy Section of the College of Agriculture, Dharwar, as the Dairy-men and the Agricultural Assistants of that Section are required to get up early morning between 3-0 A.M. and 5-0 A.M., daily, for feeding and milking the animals. In view of this, I have allowed the Principal, College of Agriculture, Dharwar, to purchase one alarm time-piece, worth Rs.30/- only, locally, in anticipation of Government sanction.

I am to request you to move Government to sanction the purchase of one alarm time-piece, worth Rs.30/- only, for the Dairy Section of the College of Agriculture, Dharwar, and to approve the action taken by me in this connection.

Director of Agriculture,
(Research and Education),

Subject:- Sanction for supply of Special Agricultural Forms

AGRICULTURE & RURAL DEVELOPMENT DEPARTMENT
1614
File No.
Date
Received 8 B 23616

I forward herewith a statement showing the requirements of the Special Agricultural Forms for the College of Agriculture, Dharwar, for three years, i.e. 1947-48, 1948-49 and 1949-50, and would request you to move Government to accord their sanction to the printing of these Forms as early as possible.

As the Agricultural College, Dharwar, has been recently started, the requirements were not included in the last triennial indent which was submitted to the Superintendent, Government Printing and Stationery, Bombay, in the year 1945.

The indent has been prepared on the basis of the minimum requirements of the different Sections, and it is requested that no reductions in the number of copies of the forms required by the Principal, College of Agriculture, Dharwar, may please be made.

AB Lemay
for Director of Agriculture
(Research & Education),
Bombay Province.

Copy forwarded with compliments to the Principal, Agricultural College, Dharwar, for information with reference to his letter No.D-2/2362 of 12th July, 1947.

vsc.

List of special agricultural forms required for the use of the Agricultural College, Dharwar, for the three years ending 1949-50 (i.e. for 1947-48, 1948-49 and 1949-50).

--Levelling Operations at Dharwar Agr.College--

As decided with the Hon. Minister for Agriculture at Poona on the 23 rd instant the Military Authorities at Poona were contacted with a view to find out if any of their Bull-Dozers would be available for the purposes of levelling up the ground on which the buildings of the Agricultural College are to be constructed and I am glad to state that a Medium Bull-dozer would be ~~mad~~ spared for the work. The Govt of Bombay shall have to bear all the expenses of transport of the machine from and back to its present location, expenses on working of the machine in accordance with the Rules of the Military. The Machine can work at Dharwar for one month.

2/ Will you kindly obtain immediate orders of Govt for taking the Machine on Loan as stated above and on the terms of the Military and communicate the same to the Chief Engineer, Southern Command, Poona, DIRECT with a copy to me and others concerned? As the Contract for the construction of the buildings is given out the Bull dozer shall have to start work at once.

3/ An estimate for the work contemplated will be prepared in due course but expenditure should be authorised in advance and this will be met with from the Funds of the College.

-- Bull Dozer for the Agricultural Department
Levelling operations at Dharwar College --

I am to refer to my letter No. 653/46 dated 25th ultimo and to state that a reply to that letter is still awaited from you.

2. The H.M., Agriculture, on knowing that we were likely to get one medium bull-dozer on loan wanted me to see if a bull dozer cannot be purchased out right for the Agricultural Department. I made inquiries with the Chief Engineer, Southern Command, Poona, and was told that there were no bull-dozers for sale, in that Command but that I may usefully contact the Army Headquarters at New-Delhi or the Director of Disposals at Delhi or Calcutta.

3. I am to go to Delhi on the 18th of this month and I can arrange to meet the officers concerned and see if any machine can be had on sale either from the Army or from the Disposals. I would, therefore, ask to be invested with the authority to negotiate and accept a price if a machine can at all be had. I may arrange to be in Delhi for a day or two more in case I am desired to try my best to obtain a machine by purchase for the Agricultural Department. I have at present no idea of the price but I should be able to communicate the same to you by telegram from New-Delhi so that confirmation can be obtained by return.

4. The military authorities in Poona do not give us much hope of getting a machine but I may do my best if Government so orders.

5. The favour of Government orders is requested.

Chief Engineer,

Poona 1, 24 June 1947

-- BULL-DOZER FOR THE AGRICULTURAL DEPARTMENT - ENQUIRY AT DELHI --

As desired in Government Memorandum, Agricultural and Rural Development Department No.1014/16871-B dated the 13th instant, I contacted some officers, in regard to the possibility of getting for the Agricultural Department one or more bull-dozers by outright purchase.

2. The Office of the Consulting Engineer (Roads), Government of India, has been keeping a close watch on various kinds of machinery and among them bull-dozers, which are released, from time to time, by the Military and the Disposals Department. The latest information available in that office is that some bull-dozers or tractors with bull-dozer attachments, which were released, have already been absorbed, some by the Sind Government and others by the CWINC and that there is no likelihood of any more bull-dozers being offered for disposal by the Government of India.

(a) It was suggested by the Deputy Consulting Engineer (Roads), that it would be of no use to have one or two bull-dozers or machines of the kind, because the question of spares and adequate machinery for carrying out repairs comes in and he would advise a fleet of not less than six bull-dozers being purchased or taken over by the Agricultural Department. Spare parts of these machines are not at all available and if only one machine is taken over, any programme that Government might make, is likely to fail because of the impossibility of carrying out adequate repairs at short time. If many machines are employed, it is easier to carry a stock of spares and to engage the

requisite expert Mechanical Engineering establishment. I attach a copy of the Note dated the 20th June 1947 given to me by that office as summing up the situation.

(b) I contacted Rai Bahadur A.N.Khosla, Director of the CWINC, He said that he had taken over six machines, so far as he could remember, and he had none to spare but if the Agricultural Department is in dire want of one bull-dozer - D.7 type - he might seriously consider if he could spare one. He has taken a note of the requirements of the Bombay Government and I suggested to him that I would request the Agricultural Department to address him direct on the subject by way of a reminder or by way of eliciting fuller information. Rai Bahadur, too agreed that it was no use taking over one machine and that there was no early chance of getting more machines from the Disposals. Contacting the importers might perhaps be a better method.

X.(c) The third party I contacted was Brigadier Patterson and as he had just gone out I met his Deputy, who deals with this Agricultural machinery. At the present moment the Military have no more surplus to declare but they are going thoroughly into the stocks available at Kankanara Depot and perhaps after three months the stock will have been thoroughly gone into and properly classified. From the useful bull-dozers that may be found to be on hand, the first lot will go to the regular Military requirements. The second lot would go to the

but he warned me that machines in the last category were not likely to be serviceable and that in the absence of spares, which simply are not available, he would not recommend the Bombay Government to go in for any of them. The latest orders appear to be that incomplete or unserviceable machines should be handed over to the importers of those machines and should be given the first preference as it is they alone who can command the requisite spares and put the machines in working order. Obviously the overhauled and thoroughly repaired machines will command a stiff price but that, in the circumstances, appears to be inevitable. At the moment the Military in Delhi have no machines to spare and none are likely to be declared as surplus, during the course of the next three months.

OFFICE OF THE CONSULTING ENGINEER (ROADS)

New Delhi, 20th June 1947.

Bull- dozers.

As far as this office is aware, bull-dozers are not at present available with D.G.Disposals. It is understood that no further declarations of surplus road making machinery will be made by the Army.

The cost of a new Caterpillar D.7 Tractor fitted with Bull-dozer is approximately Rs.35,000/- at an Indian Port.

Messrs.Buckwell & Co., Lahore, are the agents for Caterpillar, and Messrs. Volkart Bros., Bombay, for International machines.

Submitted for information with reference to H.M. (Agra's) note, dated the 5th June 1947.

2. The Chief Engr., P.W.D's note shows that there is no likelihood of any bull-dozers being offered for disposal by the Govt. of India and that it is not advisable to go in for any of them in view of the difficulty of obtaining spare parts. Perhaps the question of purchase of a bull-dozer may be dropped for the present.

2. It was first arranged to get the Bull--dozer from Avadi to Dharwar by road; but due to restrictions as regards the weight on bridges and as some of the bridges would not stand the load the idea of bringing the Bull Dozer by road had to be given up by the Military. The Military authorities have now decided to get the Bull-dozer by rail. Accordingly the Chief Engineer, Southern Command, has issued a telegram to Commanding Royal Engineer, Madras, to send the Bull-dozer by rail (copy enclosed for reference) on 5th July 1947. The military authorities have however requested this office to move the Bombay Government to arrange for very high priority for Railway Wagon for transport of the bull-dozer.

3. In the circumstances stated above, I request you to move the Government of Bombay and the Government of Madras to accord a higher priority for the wagon for transport of the bull-dozer from Avadi to Dharwar so as to speed up the transport. The movement of machinery is classified in Class III at present which means practically little priority.

Bombay, 12th September, 1947.

Dear Mr. Dadachandji,

Messrs. K.B. Chinchankar and Co., Ltd., Engineers, Poona, have been given the contract for the construction of buildings for the new Agricultural College at Dharwar. I understand the P.W.D. have already recommended the supply of 1,600 tons of cement to the Company out of which only 23 tons have so far been received. It is absolutely necessary that the construction of the buildings should be completed by the 30th April, 1948, as this is one of the conditions for the affiliation of the College to the Bombay University. I shall, therefore, be grateful if you will kindly issue a special priority permit for the despatch of 300 tons of cement per month to the Executive Engineer, Dharwar Division, Dharwar.

Yours sincerely,

(D.N. Mahta)

The Manager,
Shahpur.

Dear Sir,

Our S.O.No.3-2001(Dn.) for 300 tons -
Destination - Dharwar

We would invite your reference to the above special order under which 100 tons are to be despatched in August and 100 tons in September and the balance in October. However only 13 tons have been despatched by you against this order on 10-8-1947.

Deliveries are, therefore, considerably in arrears. Cement under the above order is required for the construction of an Agricultural College at Dharwar and this construction has been given high priority by the Bombay Government. The Managing Director of Messrs. K.B. Chinchamnar & Co., Poona who are the Contractors for the construction called on us to-day in connection with cement supplies. We advised him that the difficulty is in getting sufficient wagons for movement via Kotgi Junction. He has promised to see the S. & S.H. Railway authorities at Kalli and make the necessary arrangements for the supply of wagons at Kotgi for moving cement intended for the College construction.

We shall, therefore, be glad if you will arrange to despatch 2 wagons every week for the next 4 weeks against the above order. This quantity, please advise ~~[illegible]~~ K.B. Chinchamnar & Co., Shantiniketan, Jangliamaraj Road, Poona and they will no doubt see what they can do to overcome them.

-- Bull dozer for the Agricultural College at Dharwar. Steps taken to secure --

When the site of the Agricultural College at Dharwar was decided upon it was considered desirable to level it by means of a bull dozer and proposals were made to Government. The following particulars show the present position of the bull dozer from Avadi to Dharwar:--

(a) Proposal was made to Secretary, Agriculture and Rural Development Department to obtain a bull dozer from the Military Authorities on loan for a month vide this office letter No. 653/46-W dated 26th May 1947 and Government sanction to do so and to incur expenditure was requested.

(b) Government approved the proposal vide Agriculture and Rural Development Department letter No.1014/15066-B dated 2nd June 1947 and authorised Chief Engineer, Public Works Department, to contact Chief Engineer, Southern Area, and arrange matters. The anticipated expenditure is to be reported in due course for obtaining Government sanction.

(c) Chief Engineer, Southern Area, contacted personally and arrangements to send a bull dozer in a tractor by road were made vide this office letter No.653/46-W dated 6th June 1947 and Chief Engineer, Southern Area's telegram No.6/1230/E.F. dated 6th June 1947.

(d) Chief Engineer, Southern Area, reminded on 1st July 1947 under this office No. 653/46-W ~~to~~ and Chief Engineer, Southern Area, reminded Commanding Royal Engineer, Madras vide his telegram No. 041615 EF dated 5th July 1947.

(e) It was learnt that the bull dozer could not be sent by road as some of the cross drainage works were not safe to carry the load. Proposals were then made under this office letter No.653/46-W dated 19th July 1947 to the Secretary to Government, Agricultural and Rural Development Department to obtain a wagon to load it on a very high priority from the Government of Madras.

(f) Secretary, Board of Transport, Bombay, wired Conrypties Madras vide express telegram No.789(1) 3416/V dated 16th July 1947 to help Chief Engineer Southern Area in arranging despatch of bull dozer from Avadi to Dharwar and informs in his express telegram No.789(1)3547/V dated 23rd July 1947 that Conrypties Madras has sanctioned the movement and the consigner should be advised to arrange despatc

No.Edn/ 6389 of 19

Office of the
Director of Agricultu
Bombay Province,

Poona 1, 16 October,19

To

The Secretary to Government,
Revenue Department,
Bombay.

Subject:- Transfer of the Conservator of Forests, Southern Circle's bungalow at Dharwar to the Principal, College of Agriculture, Dharwar.

Reference Government endorsement, Revenue Department, No.2228-D/45, dated the 19th May, 1948.

The Principal, College of Agriculture, Dharwar, has reported to me that the period of six months for which the Conservator of Forests, Southern Circle's bungalow at Dharwar belonging to Forest Department, was transferred to the Agricultural Department for use as the College hostel, is due to expire on the 10th November, 1948. He has further stated that the hostel buildings at the College of Agriculture, Dharwar, are not likely to be ready for occupation for some time yet and accordingly, it is necessary to continue the occupation of the Forest bungalow as a hostel until the end of March, 1949. Accordingly, he has proposed that the period for which the bungalow was transferred to the College of Agriculture, Dharwar, may be extended up to the 31st March, 1949. I agree to the proposal made by him.

In the circumstances, I am to request you to move Government to extend the period of the transfer of the Conservator of Forests, Southern Circle's bungalow at Dharwar, to the Principal, College of Agriculture, Dharwar, for a further period ending the 31st March, 1949.

Favour of early orders in the matter is requested.

Below letter No.DR/25, dated the 16th November 1948, from Messrs. K.B.Chinchankar and Company, Limited, Poona 4, regarding construction of buildings for the College of Agriculture, Dharwar.

Agricultural Department

No.Edn/Spl. of 1948.

Office of the
Director of Agriculture,
Bombay Province,
Poona 1, 22nd November, 1948.

Copy forwarded with compliments to the Secretary to Government, Agriculture and Rural Development Department, Secretariat, Bombay.

Messrs. K.B.Chinchankar and Company, Limited have been obtaining the requisite supplies of timber from the Forest Department for the buildings to be constructed at the College of Agriculture, Dharwar, and making payments in respect of the supplies after the receipt of timebr. The Conservator of Forests, Utilization and Engineering Circle, Poona, has now instructed ~~xixxxxx~~ his subordinate officers at Dandeli that the firm should be asked to make payments in advance for the supplies of timber to be made to it. The firm has represented to the undersigned that the bills for a large sum of money for the work done at the College of Agriculture, Dharwar, are outstanding and that they should continue to receive the requisite supplies of timber for the purpose of the College of Agriculture, Dharwar, as heretofore. As the work of construction of the buildings at the College of Agriculture, Dharwar, is required to be completed within a stipulated time, it is requested that Government may be moved to issue orders to the Forest Department that the quantities of timber required by Messrs. K.B.Chinchankar and Company, Limited, for the purpose of the College of Agriculture, Dharwar, may be supplied to the firm as and when required and payment in respect of these supplies may be made after the delivery of timber as was done in the past. This matter may kindly be treated as most urgent as the College buildings are required to be completed by the end of May, 1949, in connexion with the affiliation of the College of Agriculture, Dharwar.

The firm has assured the undersigned that payments in respect of the supplies of timber will be made to the Forest Department as soon as the amounts outstanding from the P.W.D. are paid to the firm.

Sd/-
Director of Agriculture.

The Secretary
to the Hon'ble the Premier,
Government of Bombay,
Bombay.

Ref :- Your d.o. dated 6-11-1948 addressed to the Collector of Dharwar, copy endorsed to this office.

Dear Sir,

As desired by the Collector of Dharwar, under his No.MSC/539 dated 27th November, 1948, I am sending herewith a brief history of this Institution for the information of the Hon'ble the Premier.

2. A copy of the 1st magazine of this Institution has already been sent to the Personal Assistant to the Hon'ble the Premier under this office No.D-20/3486 dated 25th December, 1947. Please arrange to place the same for the information of the Hon'ble the Premier along with the above report.

Not available now

Thanking you,

Yours faithfully,

(H.M.Desai)
Principal.

1. The establishment of the College of Agriculture, Dharwar, was sanctioned by the Government of Bombay in the Reconstruction Depar -ment, under their Resolution No.1014 dated the 26th November,1946 at a total cost of Rs.24,04,679 out of which Rs.20,52,790 were of non-recurring nature.

2. A permanent site for the College has been selected near the Yettingudda village, about 3 miles from Dharwar, on the Dharwar-Belgaum road. The construction of buildings was started in 1947 and the college for the first year, i.e., 1947-48 year, was located on the Dharwar Farm, as a temporary measure. From the current year, i.e., May 1948, the college has been located on the permanent site as some of the buildings for holding the classes are available. The full building programme of the college is expected to be completed in the year 1949-50.

3. For the first academic year (1947-48), the first year class with 80 students - all from the Kannada districts - was started from the 15th May,1947, on the Dharwar Farm. The second year session with two classes - the first year class (75 students) and 2nd year class (70 students) - started from the 15th May,1948, on the permanent site at Yettingudda. The college will be working fully with all the three classes from the next academic year,i.e. from the year 1949-50. The site selected is ideally situated for the college, having hill-side for the location of buildings and fine valley comprising of all types of agricultural land for the college farm and the dairy. Irrigation to the land will be provided from the existing Kelgeri tank which will be placed at the disposal of the college after the Nir-sagar tank scheme to supply water to the Dharwar town in completed. Government have sanctioned acquisition of 1100 acres of land for the college, out of which, about 800 acres will be under cultivation. During the year, about 125 acres of land were acquired for the teaching of the two classes and the remaining area is expected to be acquired before the next session of the college when all the three classes will begin in May 1949.

4. The college is adequately staffed; farm, laboratories and the library are well equipped for the teaching of both the classes.....

classes during this year, and preparations for equipping the college to start the 3rd year class from the next year are in progress. When the college is ready to function fully with all the three classes from the next year, it will have the following sections to teach agriculture for the degree course (B.Sc.Agre.) according to the Bombay University standard :-

(1) Agronomy
(2) Animal Husbandry and Dairying
(3) Agricultural Botany
(4) Agricultural Chemistry and Soils
(5) Agricultural Entomology and Zoology
(6) Agricultural Bacteriology
(7) Plant Pathology
(8) Agricultural Engineering
(9) Agricultural Economics
(10) Veterinary Science
(11) Physics, Mathematics, Agricultural Meteorology and Statistics
(12) Horticulture

Each section will be in-charge of a Professor with a Lecturer, Demonstrators and field and laboratory Assistants to teach both theory, laboratory and field practices according to the subject matter to be taught under each section.

A. & R.D.D.

The note forwarded by Rao Saheb H.M. Desai, Principal Agricultural College, Dharwar, gives up-to-date information covering all points pertaining to the Dharwar College. There is nothing further to add to the information already supplied. No separate note, therefore, appears necessary. Copy of G.R. No.1014, dated the 26th Nov. 1946, sanctioning the establishment of the College and file No.1565 containing progress reports submitted by the Dir. of Agre. are put up for the information of H.P.
